

# Features

1. On/off switch
2. Lock-off button
3. Shavings discharge outlet
4. Planing depth adjustment knob
5. Planing depth graduation

## Assembly

**Warning:** Make sure that the tool is switched off and unplugged when performing the following Assembly steps.

**Replacing the cutting blades (Fig. A)**  
The cutting blades provided with this tool are reversible. An extra set of blades is included. Replacement cutting blades can be obtained from your local retailer.

**Removing**  
Loosen the bolts (6) using the wrench supplied.  
Slide the blade (7) out of the holder.  
Reverse the blade so that the unused side comes in position. If both sides are worn, the blade must be replaced.

**Fitting**  
Slide the blade into the holder until it is against the end stop.  
Tighten the bolts using the wrench supplied.  
Always replace both cutters.

**Adjusting the depth of cut (Fig. B)**  
The depth of cut is indicated by the marking (8). The setting range can be read from the graduation (5).

Turn the planing depth adjustment knob (4) to the required depth of cut.

To prevent damage to the blade, turn the knob to the "F" (park) position whenever the tool is not in use.

**NOTE:** 10 positive stops indicate 1/32" increase in cut for accurate measurement. The maximum depth of cut is 5/64". It is recommended that test cuts be made in scrap wood after each readjustment to make sure that the desired amount of wood is being removed by the planer. Several shallow passes will produce a smoother finish than one deep one.

**Fitting and removing the parallel fence (Fig. C)**  
The parallel fence is used to for optimum control on narrow workpieces.

Loosen the locking knob (9).  
Insert the parallel fence (11) through the opening (10).  
Slide the parallel fence into the desired position.  
Tighten the locking knob.

To remove the parallel fence proceed in reverse order.

**Connecting a vacuum cleaner to the tool (Fig. D)**  
Slide the adaptor (12) over the shavings discharge outlet (3).  
Connect a vacuum cleaner hose (13) (not included) to the adaptor.

**Assembling and fitting the shavings collection bag (Fig. E)**  
The shavings collection bag is particularly useful when working in confined spaces.

Before first use, you will have to assemble the shavings collection bag.

Fit the wire frames (14) to the connecting plate (15) using the screws (16) and washers (17).

Put the cloth bag (18) over the frame structure as shown.

Take care that the bag opening (19) is well fitted around the edge of the connecting plate (15).

Slide the connecting plate over the shavings discharge outlet (3).

**Operation**  
Adjust the depth of cut.

If necessary, fit and adjust the parallel fence.

Use shaver cutters only.

**Switching on and off**  
Switching on (Always pick up your planer before depressing the switch.)  
The planer is started by depressing the lock-off button (2) and then depressing the on/off switch (1) on the handle.

- Planing**
- Hold the tool with the nose piece of the shoe resting on top of the workpiece surface.
  - Switch the tool on.
  - Move the tool steadily forward to perform the cutting stroke.
  - Switch the tool off after the stroke has been completed.
- Rabotage (Fig. F)**
- Fit and adjust the parallel fence.
  - Proceed as for planing.
- Chamfring edges**  
The 'V'-groove in the nose piece of the shoe enables you to chamfer edges at 45 angles.
- Hold the tool at an angle with the groove around the edge of the workpiece and perform the cutting stroke.
  - It is a good idea to try a piece of scrap wood before doing finish work.
- Emptying the shavings collection bag**  
The shavings collection bag should be emptied regularly while using it.
- Unzip the bag and empty it before continuing.
- Hints for optimum use**
- Follow the grain of the wood.
  - If the grain is cross or curly, or if the workpiece material is a hard type of wood, adjust the depth of cut to take only a very thin shaving at each pass and take several passes to achieve the desired result.
  - To keep the tool in a straight line, press down the front of the tool at the start, and press down the back of the tool at the end of the cutting stroke.
- Replacing the drive belt (Fig. G)**
- Loosen the screws (22) and remove the cover (21).
  - Remove the old drive belt.
  - Place the new belt (22) over the pulleys. Place the belt over the large pulley (23) first, then over the small pulley (24), while manually rotating the belt steadily.
  - Put the cover back in place and tighten the screws.
- Maintenance**  
Your tool is designed to operate over a long period of time with a minimum of maintenance. Continuous satisfactory operation depends upon proper tool care, including the following:
- Regularly clean the ventilation slots in your tool using a soft brush or dry cloth.
  - Bleed clean the motor housing using a damp cloth.
  - Do not use any abrasive or solvent-based cleaner. Never let any liquid get inside the tool and never immerse any part of the tool into liquid.
- IMPORTANT:** To assure product SAFETY and RELIABILITY, repairs, maintenance and adjustment (other than those listed in this manual) should be performed by authorized service centers or other qualified service personnel, always using identical replacement parts.
- Accessories**  
Recommended accessories for use with your tool are available from your local dealer or authorized service center. If you need assistance regarding accessories, please call: 1-800-544-6986.
- WARNING:** The use of any accessory not recommended for use with this tool could be hazardous.
- Service Information**  
All Black & Decker Service Centers are staffed with trained personnel to provide customers with efficient and reliable power tool service. Whether you need technical advice, repair, or genuine factory replacement parts, we'll be glad to help you. To find your nearest service location, call: 1-800-544-6986 or visit [www.blackanddecker.com](http://www.blackanddecker.com).
- Full Two-Year Home Use Warranty**  
Black & Decker (U.S.) Inc. warrants this product for two years against any defects in material or workmanship. The defective product will be replaced or repaired at no charge in either of two ways. The first, which will result in exchanges only, is to return the product to the retailer from whom it was purchased (provided that the store is a participating retailer). Returns should be made within the time frame of the retailer's policy for exchanges (usually 30 to 90 days after the sale). Proof of purchase may be required. Please check with the retailer for their specific return policy regarding returns that are beyond the time set for exchanges. The second option is to take the product to the nearest Black & Decker owned or authorized Service Center for repair or replacement at our option. Proof of purchase may be required. Black & Decker owned and authorized Service Centers are listed on our website [www.blackanddecker.com](http://www.blackanddecker.com). This warranty does not apply to accessories. This warranty gives you specific legal rights and you may have other rights which vary from state to state. Should you have any questions, contact the manager of your nearest Black & Decker Service Center. This product is not intended for commercial use.
- FREE WARNING LABEL REPLACEMENT:** If your warning labels become illegible or are missing, call 1-800-544-6986 for free replacement.
