### Safety information

 Excited to start using your BlackBerry smartphone? Before you get started, read this booklet which contains important safety and regulatory information for your BlackBerry smartphone. Keep this booklet in a safe place so that you can refer to it whenever you need it.

In some countries there may be restrictions on using Bluetooth enabled and wireless devices with encryption software. Check with your local authorities for the restrictions in your area.

### Important safety precautions

[illegible]

### Using your smartphone safely

- Do not place heavy objects on your BlackBerry smartphone.
- Do not attempt to modify or service your BlackBerry smartphone.
- Do not attempt to cover or push objects into openings on your BlackBerry smartphone unless instructed to do so in the BlackBerry software documentation supplied by Research In Motion. This may include a short circuit, a fire, or an electric shock.
- Do not use sharp objects on the screen.
- Do not use excessive force on the screen.
- Do not use your BlackBerry smartphone or BlackBerry smartphone accessories near water (for example, near a bathtub or a sink, in a wet basement, or near a swimming pool).
- Do not place your BlackBerry smartphone or BlackBerry smartphone accessories on any surface that is slippery, uneven, or unstable, such as a car seat.

thereby potentially causing serious injury to a person and serious damage to the BlackBerry

- When using your BlackBerry smartphone, take frequent breaks. If you experience any discomfort in your neck, shoulders, arms, wrists, hands (including thumbs and fingers), or other parts of the body when using your BlackBerry smartphone, cease use immediately. If discomfort persists, consult your physician.

### Electrical safety

Changes to the BlackBerry smartphone may use only the changing accessories provided by or specifically approved for use with the BlackBerry smartphone. Any other changing accessories used without the approval of the manufacturer of the BlackBerry smartphone may void the warranty and may be dangerous. Under this document must be in writing and must be from a person authorized to provide such approval. Use of any other changing accessory might invalidate any warranty provided with the BlackBerry smartphone.

[illegible]

Use the charging accessories provided with the BlackBerry smartphone or any other RIM approved charging accessories only from the type of power supply indicated on the marking label. Before you use any power supply, verify that the mains voltage is in accordance with the voltage printed on the power supply. Connect the BlackBerry smartphone only to CTA certified adapters, products that bear the USB IF logo, or products that have completed the USB IF compliance program.

Do not overload power outlets, extension cords, or convenience receptacles because this might result in a risk of fire or electric shock. To reduce the risk of damage to the cord or the plug, pull the plug rather than the cord when you disconnect the charging accessory from the power outlet or extension cord.

Protect the power cord from being walked on or pinched, particularly at plugs, convenience receptacles, and the point where the power cord connects to the BlackBerry smartphone. Unplug charging accessories during lightning storms or when unused for long periods of time. When you use your BlackBerry smartphone with any charging accessories, ensure that you route the power cord a way that reduces the risk of injury to others, such as tripping or choking. Do not use charging

For more information about inserting the battery and connecting the power supply, see the documentation that came with your BlackBerry smartphone.

To buy accessories for your BlackBerry smartphone, contact your wireless service provider or visit [blackberry.com/accessories](http://blackberry.com/accessories).

### Battery safety

Your BlackBerry smartphone contains a removable lithium-ion cell battery.

The battery might present a fire or chemical burn hazard if misused. Do not disassemble, crush, or puncture the battery. If the battery has been disassembled, crushed, or punctured, cease use of the battery immediately. Do not heat the battery above 140°F (60°C). Heating the battery above 140°F (60°C) could cause the battery to catch fire or explode. Do not allow metal objects to contact the battery terminals.

**CAUTION:** Use only the battery that Research In Motion specifies for use with your particular BlackBerry smartphone model. RIM specifies batteries for use in BlackBerry smartphones in compliance with IEEE Std 1725-2000. Using any other battery might invalidate any warranty provided with the BlackBerry smartphone. In addition, there might be a risk of fire or explosion if you use a battery that is not an RIM-branded battery. Please do not dispose of used batteries anywhere in the environment not set in this page. Inform your dealer about this.

Children should not handle batteries unless they are supervised by an adult.

When this icon appears on your BlackBerry smartphone, the battery is not inserted correctly or an invalid battery is inserted. If you inserted the battery that is specified for use with your particular BlackBerry smartphone model, remove and reinsert the battery. If you inserted an invalid battery, remove it immediately and insert the battery that RIM specifies for use with your particular BlackBerry smartphone model. Verify that the battery connectors align with the connectors on your BlackBerry smartphone.

### Driving and walking safely

Give your full attention to driving; driving safely is your first responsibility. You are responsible for knowing and obeying the laws and regulations regarding the use of wireless devices in the areas where you drive.

Research in Motion recommends that you do not use your BlackBerry smartphone while you drive. Instead, consider having a passenger in the vehicle use your BlackBerry smartphone for you, or find a safe location to stop your vehicle before you use your BlackBerry smartphone.

Store your BlackBerry smartphone safely before driving your vehicle. Do not use any charging accessory as a means of storing your BlackBerry smartphone while you are in a vehicle. If your vehicle is equipped with an air bag, do not place your BlackBerry smartphone or other objects above the air bag, or in the air bag deployment area. If in-vehicle wireless equipment is improperly stored or installed and the air bag inflates, serious injury could result.

Radio frequency signals might affect improperly installed or inadequately shielded electronics. If any equipment has been added to your vehicle, you should also consult the manufacturer of that equipment for information on radio frequency signals.

Do not use your BlackBerry smartphone while walking or engaging in any activity that requires your full attention. Inattention to vehicular traffic or other pedestrian hazards could result in serious injury, or damage to property.

### Accessories

Use only those accessories approved by Research In Motion. Using any accessories not approved by RIM for use with this particular BlackBerry smartphone model might invalidate any approval or warranty coverage. Improper use of this smartphone, or any accessories, might result in the BlackBerry smartphone becoming inoperable, not under the warranty.

**Changing institutions:** Your BlackBerry smartphone might not come with a holder (buddy-arm, anyone?), so you may need to buy one. Or, if you're a power user, you may want a BlackBerry "dock" to hold your BlackBerry smartphone. Another option is to use an integrated and built-in clip, designed or suggested by Research In Motion. If you do that, use a holder designed with an integrated built-in clip.
