Armed Conflict, Women and Climate Change Jody M. Prescott, 2018-11-21 The gender differentiated and more severe impacts of armed conflict upon women and girls are well recognised by the international community as demonstrated by UN Security Council Resolution UNSCR 1325 on Women Peace and Security and subsequent resolutions Similarly the development community has identified gender differentiated impacts upon women and girls as a result of the effects of climate change Current research and analysis has reached no consensus as to any causal relationship between climate change and armed conflict but certain studies suggest an indirect linkage between climate change effects such as food insecurity and armed conflict Little research has been conducted on the possible compounding effects that armed conflict and climate change might have on at risk population groups such as women and girls *Armed Conflict Women and Climate Change* explores the intersection of these three areas and allows the reader to better understand how military organisations across the world need to be sensitive to these relationships to be most effective in civilian centric operations in situations of humanitarian relief peacekeeping and even armed conflict This book examines strategy and military doctrine from NATO the UK US and Australia and explores key issues such as displacement food and energy insecurity and male out migration as well as current efforts to incorporate gender considerations in military activities and operations This innovative book will be of great interest to students and scholars of international relations international development international security sustainability gender studies and law *Federal Register*, 2017 **United States Code** United States, 2018 **Military Design Thinking** Aaron P. Jackson, 2024-09-30 This book examines the newly emergent field of military design thinking how it has been developed inside and outside of military doctrine and the paradigms that underlie its key thinkers and methodologies From the emergence of its initial methodologies in the late 1990s military design thinking s development rapidly accelerated in the mid 2000s in response to perceived failures of existing military doctrine and practice to adapt to the wars of the early 21st century To establish a foundation for exploring the significance of the challenge military design thinking presented to dominant approaches to warfare the early chapters in the book examine the ontology and epistemology of military doctrine which is defined as a written expression of a military s institutional belief system regarding how to wage war They also explain how attempts to incorporate military design thinking into doctrine ultimately led to its assimilation into this belief system requiring military design thinkers to continue to explore and develop the field outside of doctrine Since the mid 2010s non doctrinal military design methodologies have become increasingly prominent within several Western militaries including the US Canada UK Australia and several European militaries Later chapters offer an exploration of the paradigms underlying non doctrinal as well as doctrinal design methodologies This book highlights how the field has evolved shows how military design thinking differs from its civilian equivalents developed in fields such as commerce and business management and discusses how it may evolve in the near future This book will be of much interest to students of military
