International Commercial Arbitration Giuditta Cordero-Moss, 2013-03-14
Arbitration clauses in international commercial contracts are often reused from existing contracts By so doing the parties choose to apply for example either ad hoc or institutional arbitration and the UNCITRAL ICC LCIA SCC Swiss or other

arbitration rules without necessarily being aware of the consequences Moreover parties often assume that an arbitration clause has the effect of excluding any kind of interference from a court of law and of rendering any but the chosen law redundant This book highlights the specific features of various forms of arbitration and enables lawyers to make informed choices when drafting arbitration clauses Chapters explain the framework for arbitration its relationship with national law and the features of the main arbitration institutions in Europe The book also highlights new trends in other parts of the world that may have repercussions on the theory of international arbitration The Law Reports.
