Learning Area: Arts II

EAST ASIAN ARTS

Quarter: II

## DEFINING THE LEARNING OUTCOME

### General Level Standard:

Tell your students that at the end of Grade 8, they are expected to demonstrate understanding of salient features of Asian music and the arts, through appreciation, analysis, and performance for self-development, the celebration of Filipino cultural identity and diversity, and the expansion of one's world vision.

### Content Standard:

Tell them at the end of the Second Quarter, they are expected to:

- demonstrate understanding of art elements and processes by synthesizing and applying prior knowledge and skills.
- demonstrate understanding of the salient features of the arts of East Asia by comparing the art elements and processes among culturally diverse East Asian countries.

### Performance Standard:

The teachers are expected to:

- create an artwork showing the characteristic elements of the arts of China, Japan and Korea.
- put up a mini-East Asian art exhibit using their own artworks.

### Learning Competencies:

Tell your students know that at the end of this particular learning module, they are expected to:

1. analyze the art elements (color, line, shape, etc.) and principles (balance, proportion, emphasis, harmony, etc.) in the production of art and crafts.
2. identify the characteristics of arts and crafts found in East Asia
3. reflect on and derive the mood, idea, or message emanating from selected artwork.
4. determine the effectiveness of artwork by evaluating its utilization and combination of art elements and principles.
5. evaluate the effectiveness of mood, idea, or message as depicted by the visual image in the artwork.
6. trace the external (foreign) and internal (indigenous) influences that are reflected in an artwork or in the making of a craft or artifact.

## **DepEd Grade 8 Teaching Guide:**

**Aesthetic Teaching Pedagogies** Reynaldo B. Inocian, 2018-10-09 This book presents an assortment of teaching and assessment strategies appropriate for 21st century learners based on the author's 25 years of teaching experience in private and state school institutions in the Philippines. It highlights the outcomes-based assessment of learning the curriculum basics for arts-based teaching learning activities based on the integrated arts for an effective instructional process and examples in the teaching of critical thinking, communication, collaboration, and creativity known as the Four Cs. While the monograph focuses on the author's local context, a plethora of citations provides clear connections that address learner diversity in recent global education contexts. The text is a useful guide for students who want to pursue a degree in teaching as well as novice and expert teachers, university professors, and advocates for teaching and learning. Research on Reasoning with Data and Statistical Thinking: International Perspectives Gail F. Burrill, Leandro de Oliveria Souza, Enriqueta

Reston, 2023-07-21 This book is derived from selected papers from the Fourteenth International Congress on Mathematical Education Topic Study Group 12 Teaching and Learning Statistics. It describes recent research on curriculum pedagogy and outreach initiatives from countries as diverse as Brazil, Chile, Columbia, Denmark, Germany, the Netherlands, Spain, Sweden, Thailand, Turkey, the United Kingdom, and the United States. The book has a focus on the use of data in the teaching and learning of statistics across grade levels and begins with an overview of the status of statistics education and the use of data from seven different countries across the continents and the link between research and practice in those countries. Because it contains specific examples of the research, for example, on the ways children learn the choice and implementation of tasks or the role of informal inference, the book will be a great resource to those interested and involved in the teaching of statistics curriculum developers and statistics education researchers. **Online interactive resources for asynchronous modality**

**in teaching grade 12 General Biology** John Kenneth Taneo, 2022-06-21 Master's Thesis from the year 2021 in the subject Didactics Biology grade 12 language English abstract This research assessed the status of online interactive resources for asynchronous modality in teaching grade 12 General Biology 1 at the University of Cebu METC Campus Cebu City during School Year 2020-2021 as the basis for an enhanced learning module. This study utilized a quasi-experimental method of research employing the use of a non-equivalent control group pretest-posttest design. Two sections of Grade 12 STEM with a total of 47 students participated as research respondents in both the experimental and the control groups. The students answered a 40-item multiple choice questionnaire as a research instrument. The control group was treated with only pure text modules and PowerPoint presentation. In contrast, students from the experimental group utilized online interactive resources containing some hyperlinked lectures, video lectures, interactive games, animations, and some simulated demonstrations that were adopted and utilized for Grade 12 STEM learners in General Biology 1. The Routledge Handbook of English Language Education in the Philippines Julius C. Martinez, Isabel Pefianco Martin, 2025-09-30 This handbook serves as a

comprehensive resource on English language education in the Philippines addressing a wide range of issues including ideologies multilingualism identities policies methodologies assessment teacher education and curriculum Chapters cover a range of educational contexts from Luzon to Mindanao islands from basic to higher education and from formal to non formal schooling This book upholds the think and do otherwise perspective by problematizing contemporary paradigms and practices that operate from naturalized ideas inherited from the American colonizers This includes repairing pedagogies that redress injustices experienced by historically marginalized groups and hoping for possibilities and approaches to teaching and learning English that are just equitable and inclusive The six sections in the Handbook bring up conditions for thinking and doing otherwise pointing to ways in which genuine changes can start to happen Scholars from diverse backgrounds come together in this handbook to take collective ownership of English language education in the Philippines This ownership does not mean ignoring and disposing of the country's colonial past but reclaiming English language education as an ongoing project instead This handbook likewise demonstrates that such a project makes it possible for wider audiences to see that Global South scholars from and in the Philippines also have much to teach the rest of the world about thinking and doing otherwise and by extension problematizing repairing and hoping Given its scope and breadth the handbook is an invaluable reference for students pre service and in service teachers teacher educators researchers and policymakers interested in English language language education TESOL sociolinguistics and applied linguistics

Mathematical Tasks in Classrooms Around the World ,2010-01-01 Mathematical tasks have long been recognized as crucial mediators between mathematical content and the mathematics learner For many people the mathematics classroom is defined by the type of tasks one finds there and this is appropriate Mathematical tasks are the embodiment of the curricular pretext that brings each particular set of individuals together in every mathematics classroom In other contexts individuals come together to engage in musical performances or dramatic performances The performances of the mathematics classroom are largely the performance of mathematical tasks and if we are to understand and facilitate the learning that is the purpose of such settings then we must understand the nature of the performances that we find there The classroom performance of a task is ultimately a unique synthesis of task teacher students and situation Of particular interest are differences in the function of mathematically similar tasks when employed by different teachers in different classrooms for different instructional purposes with different students By making comparison possible between the classroom use of mathematical tasks in different classrooms around the world the analyses reported in this book reveal the profound differences in how each teacher utilises mathematical tasks in partnership with their students to create a distinctive form of mathematical activity The Learner's Perspective Study aims to juxtapose the observable practices of the classroom and the meanings attributed to those practices by classroom participants The LPS research design documents sequences of at least ten lessons using three video cameras supplemented by the reconstructive accounts of classroom participants obtained in post lesson video stimulated interviews and by test and

questionnaire data and copies of student written material In each participating country data generation focuses on the classrooms of three teachers identified by the local mathematics education community as competent and situated in demographically different school communities within the one major city The large body of complex data supports both the characterisation of practice in the classrooms of competent teachers and the development of theory *English Language Teacher Preparation in Asia* Subhan Zein,Richmond Stroupe,2018-08-06 Bringing together a comprehensive range of extended research based chapters English Language Teacher Preparation in Asia provides comprehensive insight into policy research and practical aspects of teacher preparation for English teachers at pre service level across multiple contexts in Asia Written by local and international scholars specialising in TESOL Teacher education and acknowledging the increasingly complex demands made on teachers of English in view of globalisation the book explores the multiple factors which are key to effective professional learning Chapters consider how pre service teachers are best prepared for the diverse contexts in which English is learnt and taught in settings throughout Asia and draw on in depth research studies to provide rich fully contextualised coverage of aspects of teacher preparation including curriculum design programme development policy professional learning communities assessment education and teaching practicum A timely contribution to the field of teacher preparation this text will be an invaluable resource for teacher educators pre service teachers and academics involved in the preparation of English teachers in Asia
