The Contemporary Fantastic Amanda Vredenburg, 2024-11-19 In The Contemporary Fantastic Reimagining Reality in French Fiction Amanda Vredenburg identifies a contemporary shift in the use of fantastic modalities in French fiction no longer dominated by the desire to escape the disappointments of reality nor the reader s hesitation about the reality of the novel s events but by its innovative confrontation with the real What could bizarre uncanny or supernatural literary representations have to tell us about very urgent real issues like the environmental crisis racism migration and the formation of egalitarian communities Through close readings of a selection of novels by Marie Darrieussecq Marie NDiaye and Antoine Volodine Vredenburg argues that the ability to blur boundaries gives the fantastic both an emancipatory and reparative function in its engagement with contemporary political issues These authors complicate categories such as human nonhuman French foreign inclusion exclusion and individual community and shift the focus to the experiential and affective dimensions of these issues ultimately allowing us to better think and feel with those that are excluded Vredenburg concludes that this use of the fantastic has a specific ethical stance which encourages a community based approach founded on compassion and inclusion
