from ancient to modern times and Sumerian literature is no exception. However, Mesopotamian lamentation literature includes a significant body of laments belonging to a unique and almost unparalleled genre: the genre of lamentations over the destruction of cities and temples. This genre has no known ancient parallel outside the ancient Near East; more specifically, it is almost exclusively attested in Sumerian and biblical literature. The Lamentation over the Destruction of Ur is the most famous and important exemplar of the city laments. In this updated and revised publication of the Lamentation over the Destruction of Ur, Samet provides an introductory discussion of Sumerian city laments in general, a full presentation of the text of the Ur Lament including transliteration, translation, and an extensive philological commentary, and an accounting of the extant textual witness in score format. Plates with color photos of many texts are included. *On the Destruction and Death Drives* Andre Green, 2023-06-29. Living with the idea of bearing a death force fundamentally directed at oneself is hardly easy to admit. It is less so in any case than the idea that we are all murderers that we are ever ready to plead legitimate defence or the need to survive so as to strike out at another. Andre Green, from the Foreword. What drives men to kill and self-destruct? *On the Death and Destruction Drives* traces the introduction and development of the controversial concept of the death drive from the work of Freud (1920, 1938) to the main contributions of classical and post-Freudian authors, including Ferenczi, Klein, Bion, Winnicott, and Lacan. Shedding light on non-neurotic phenomena and structures such as anorexia, bulimia, depression, suicide, criminal behaviour, Andre Green offers a new perspective on the relationship between the life drive (Eros) and the death drive (Thanatos). Andre Green was a key figure in contemporary psychoanalysis who embraced philosophy and an international outlook to enhance psychoanalytic theory. This book was one of his last works, originally published in French as *Pourquoi les pulsions de destruction ou de mort* in 2012. Green's defence of one of Freud's most daring revisions of his drive theory remains relevant to psychoanalytic work today, and it is an honour to bring this excellent translation to the English-speaking world. To enhance its worth, the book includes an introduction from translator Steven Jaron to clarify certain technical terms and situate the book within Green's oeuvre. This book is an important contribution to the development of psychoanalytic theory and essential reading for all trainee and practising psychoanalysts.
