

## 4 Using Your Stairlift

- 1 Lower the footrest.
- 2 Lower the seat and arms
- 3 Hold down one of the swivel paddles and swivel the seat until it locks into its operating position as shown (at the top of the stairs only).
- 4 Sit in the seat and fasten the seatbelt.
- 5 Switch the Stairlift on with the On/Off Holding Switch on the arm rest, its green lamp will illuminate, indicating the power is on.
- 6 Press the Direction Controller in the direction of travel.
- 7 After a short delay the Stairlift will beep and begin to move, slowly at first, until it reaches full speed. Keep the Direction Controller pressed down continually throughout the journey.
- 8 The Stairlift will automatically slow down and stop when it has reached the end of its travel. It is important to let the lift stop itself at the end of it's travel for safety.
- 9 Switch the Stairlift off using the On/Off Holding Switch (5)
- 10 To swivel the seat, push down a seat paddle and rotate the seat until it locks into position, partly or fully around (at the top of the stairs only).
- 11 It is now safe to undo the seat belt and alight from the Stairlift.
- 12 The arms, seat and footrest may now be folded up.
