Another Day's Journey in the Life of a Black Church Gloria Denise Warren, 1996 Family life is both a universal and diverse experience in human society with each culture proffering an adaptive formula for family life roles Family life represents a set of customs that have evolved in the context of history and in response to adverse factors in the environment This suggests that inherent in informal instruction about family life is the implied responsibility of accomplishing cultural goals The purpose of this study was to examine 1 how does the Black Baptist church preserve African American culture and family life 2 how is family life taught through rituals and symbolic roles in the Black Church and 3 how do Vygotsky's theory and concepts explain the cultural and cognitive process of passing on instruction for family life Ethnographic field methods were used to both collect and analyze data The data consisted of twenty six informant interviews a series of thirty observations of Black Church scenarios and a Women's Christian conference address Findings revealed that underlying the social and historical process in the Black Church is an African worldview in which knowledge about family life is constructed as a shared experience with the community of believers This shared experience is one in which ritual specialists the pastor ministers deacons and church mothers become key transmitters of culture and teachers of family life education Abstract

Voices of Black Folk Terri Brinegar, 2022-04-19 Recipient of a 2023 Certificate of Merit for Best Historical Research in Recorded Blues R B Gospel Hip Hop or Soul Music from the Association for Recorded Sound Collections In the late 1920s Reverend A W Nix 1880 1949 an African American Baptist minister born in Texas made fifty four commercial recordings of his sermons on phonographs in Chicago On these recordings Nix presented vocal traditions and styles long associated with the southern rural Black church as he preached about self help racial uplift thrift and Christian values As southerners like Nix fled into cities in the North to escape the rampant racism in the South they contested whether or not African American vocal styles of singing and preaching that had emerged during the slavery era were appropriate for uplifting the race Specific vocal characteristics like those on Nix's recordings were linked to the image of the Old Negro by many African American leaders who favored adopting Europeanized vocal characteristics and musical repertoires into African American churches in order to uplift the modern New Negro citizen Through interviews with family members musical analyses of the sounds on Nix's recordings and examination of historical documents and relevant scholarship Terri Brinegar argues that the development of the phonograph in the 1920s afforded preachers like Nix the opportunity to present traditional Black vocal styles of the southern Black church as modern Black voices These vocal styles also influenced musical styles The moaning voice used by Nix and other ministers was a direct connection to the blues moan employed by many blues singers including Blind Willie Blind Lemon and Ma Rainey Both Reverend A W Nix and his brother W M Nix were an influence on the Father of Gospel Music Thomas A Dorsey The success of Nix's recorded sermons demonstrates the enduring values African Americans placed on traditional vocal practices **Islam in Black America** Edward E. Curtis, 2002-05-02 Explores modern African American

Black Theology and the Menace of Racial Apocalypse Cyril Orji, 2025-04-30 Racism evolves Black theology must be adaptable For this reason Black Theology and the Menace of Racial Apocalypse argues that racism must take centre stage in Black theology because racism is an existential dread that inevitably confronts the Black person in their existential situation This book unfolds in two interwoven steps First it delves into the complex history of Black theology examining its development across its first second and third waves This critical study expositis the discomfoting idea that something is missing and that this something makes Black theology seem a little deficient as noted in the pioneering works of James Baldwin and other contemporary thinkers challenging the hesitation to engage with ideas outside Black experience The second step draws from multidisciplinary sources including brain research on cognitive bias and psychological works on implicit bias and microaggressions Effectively utilizing the methodological work of Bernard Lonergan the book argues that incorporating white sources can enhance Black theology s articulation against racism In doing so the book demonstrates how this interpretative mechanism can help overcome societal ideological differences as well as help meaningfully address the ever evolving problem of racism for Christian theology
