

Having suffered from major depression for much of her life, Stephanie Sorrell has learned to work with the disease rather than against it. Where so many mental health books feature 'fighting and overcoming' depression, her experience and understanding have enabled her to see the value of the condition rather than what it can take away.

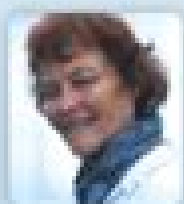

In this easy-to-read introduction to depression Stephanie shows the various ways in which it manifests, what is available on a natural as well as chemical level and how the diversity of psychological therapies serve and hold depression. There is also a spiritual thread running through which invites the reader to go further...

As a psychotherapist I thoroughly recommend Stephanie Sorrell's new book. As a parent and grandparent I wish we had this simple and accessible introduction to depression many years ago to recommend to our family and to our friends.

ROGER HEVANS, Psychotherapist and author,  
*SDG - Five Dimensions of Leadership and The Creative Manager*,  
The London Institute of Psychosynthesis

Despite the fact that one in four people will experience depression there is very little agreement on how to treat it. Is medication the answer or one of the many talking therapies? Stephanie Sorrell brings a lifetime of experience to the subject, as a sufferer and also in helping others to navigate this difficult terrain. In *Understanding the Black Dog*, she gives a balanced and practical guide to this debilitating condition which will support and lend insight to those who suffer from depression and those who aim to help them.

MAURICE TOMKINSON, Founder of the Hope Street Clinic, Sandbach

STEPHANIE SORRELL has an MA in Psychosynthesis Psychology and trained as an Applied Practitioner at the Institute of Psychosynthesis in London. She also works at an NHS hospital in Cumbria.

**How to Befriend Tame Manage and Teach Your Black Dog Called Depression Using CBT** James Manning,2016-11-20 This is the West Suffolk CBT Service s latest and most developed book on depression The use of the term the Black Dog to describe symptoms of depression can be traced back to 40 BC when it was included in the work of the Roman poet Horace In more recent times it was made famous by Winston Churchill the Prime Minister of Great Britain during World War II who often referred to his Black Dog and the Australian writer and illustrator Matthew Johnstone who wrote the best selling book I had a Black Dog For centuries the Black Dog has been associated with fear intense pain and emotional distress In the literature the Black Dog has a formidable reputation Run from it and it will hunt you down relentlessly Wrestle with it and it will bears its fangs Fear it and it will stalk you unabatedly Hide from it and it will haunt you until you are all but a shadow of your previous self Feed it and it will become much bigger than you For some suicide feels like the only escape from it The irony however is that the Black Dog is misunderstood By the time that you finish reading this book you will find out that the Black Dog is not your enemy nothing could be further from the truth The Black Dog is loyal and will never let you down The Black Dog has its own language and follows a specific set of commands and rules Once you understand the Black Dog how it operates and how to communicate with it you will find that it will happily remain in the background rather than taking a dominant role in your life

*My World* MICHAEL JEAN NYSTROM-SCHUT,2004-05-19 Let me tell you how much fun it is to be a book writer One of my friends recently said to me I dont even know anyone whos ever READ a book let alone WRITE one I was amused Well you know its really not so hard to write a book You just talk about what you feel and organize your thoughts along the way At some point as you stay determined to make it happen the book comes into the world For me now having compiled over 30 book length manuscripts of various topics and subject matter I have become more and more inclined to share the way I see the world with others along the way You might call what I like to write about as having to do with personal philosophy or individual world view Everyone has a way they see their world this book is part of how I see mine It seems that all kinds of people have something to say about what life is and is not I am like most people so am no exception I have come to enjoy giving such opinions and points of view with just about anyone who will listen I wrote this book MY WORLD The First 50 Years because I wanted to be sure and document the way life appeared to be to me at the half century mark in my personal growth and evolution I did it in a way that enables you to read right through it or if you prefer you can take it slowly over a one year span of time and think about the ideas and thoughts carefully How you read the book is entirely up to you Ten years earlier I had written a similar book Earth Dwelling An Owners Manual for Life

in order to share thoughts about the meaning and purpose of life It is amazing the difference that ten years can make I like to think that I am growing Gee Could that be I sure hope so People from the worlds of philosophy religion and the popular culture are anxious to share the way they see the world with others I have a passion to do that also and so I wrote this book in order to summarize how things in life appeared to me I could be way off you decide for yourself At any rate my world is MY way of seeing life in YOUR world you will see it your special way and that is part of the beauty of this life Each person is free to see it differently and that is our basic right to do so I like that I actually feel so strongly about what I am saying here that I created a web site which is called HowIseetheworld.com to talk about and share ideas with others Take a look at it some time Thoughts are powerful and have a tendency to either make you great or even destroy you before your time So think good thoughts And enjoy the book as well

*Black Dogs and Blue Words* Kimberly K.

Emmons,2010-02-16 His black dog that was how Winston Churchill referred to his own depression Today individuals with

feelings of sadness and irritability are encouraged to talk to your doctor These have become buzz words in the aggressive promotion of wonder drug cures since 1997 when the Food and Drug Administration changed its guidelines for the marketing of prescription pharmaceuticals Black Dogs and Blue Words analyzes the rhetoric surrounding depression Kimberly K Emmons maintains that the techniques and language of depression marketing strategies vague words such as worry irritability and loss of interest target women and young girls and encourage self diagnosis and self medication Further depression narratives and other texts encode a series of gendered messages about health and illness As depression and other forms of mental illness move from the medical professional sphere into that of the consumer public the boundary at which distress becomes disease grows ever more encompassing the need for remediation and treatment increasingly warranted Black Dogs and Blue Words demonstrates the need for rhetorical reading strategies as one response to these expanding and gendered illness definitions
