Describing Objects By More Than One Attribute:

Process Control Engineering Martin Polke, 2008-09-26 This book surveys methods problems and tools used in process control engineering Its scope has been purposely made broad in order to permit an overall view of this subject This book is intended both for interested nonspecialists who wish to become acquainted with the discipline of process control engineering and for process control engineers who should find it helpful in identifying individual tasks and organizing them into a coherent whole A central concern of this treatment is to arrive at a consistent and comprehensive way of thinking about process control engineering and to show how the several specialities can be organically fitted into this total view Models and Methods in Multiple Criteria Decision Making G. Colson, C. De Bruyn, 2014-06-28 This volume is devoted to models and methods in multiple objectives decision making The importance of the multiple dimensions of decision making was first recognised during the 1960s and since then progress has been made in that theoretical or application oriented contributions may now be categorized under two main headings Multiattribute Decision Making MADM which concerns the sorting the ranking or the evaluation of objects of choice according to several criteria and Multiobjective Decision Making MODM which deals with the vector optimization in mathematical programming The above are also presented in the context of various applications namely banking environment health manpower media portfolio and traffic control resulting in a book for a wide variety of readers Databases In The 1990s: 2 - Proceedings Of The 2nd Australian Databases- Information Systems Conference B Srinivasan, John Zeleznikow, 1991-06-14 These proceedings record the research and experiences of various researchers from Australia and other countries in databases and information systems The papers were selected based on their originality content relevance and style Topics discussed include advanced database applications information analysis and data modelling object oriented DBMS distributed heterogeneous and parallel database systems information resource planning and management etc **Bringing the High Scope Approach to Your Early Years Practice** Nicky Holt, 2007-06-11 Have you ever wondered what High Scope is where it came from and how it can be used with young children in your setting Well this book will answer all your questions and more **Explainable Artificial Intelligence Based on Neuro-Fuzzy Modeling with Applications in Finance** Tom Rutkowski, 2021-06-07 The book proposes techniques with an emphasis on the financial sector which will make recommendation systems both accurate and explainable The vast majority of AI models work like black box models However in many applications e g medical diagnosis or venture capital investment recommendations it is essential to explain the rationale behind AI systems decisions or recommendations Therefore the development of artificial intelligence cannot ignore the need for interpretable transparent and explainable models First the main idea of the explainable recommenders is outlined within the background of neuro fuzzy systems In turn various novel recommenders are proposed each characterized by achieving high accuracy with a reasonable number of interpretable fuzzy rules The main part of the book is devoted to a very challenging problem of stock market

recommendations An original concept of the explainable recommender based on patterns from previous transactions is developed it recommends stocks that fit the strategy of investors and its recommendations are explainable for investment advisers
