Conflict In Blood:

Conflict in Blood Ariel Tachna, 2014-10-31 Sequel to *Covenant in Blood* Partnership in Blood Volume Three As the Alliance wizard vampire partnerships grow stronger the dark wizards feel the effects and become increasingly desperate to find enough information to counter them unaware of the growing strain of the blood magic bonds on the wizards and vampires alike The conflict is spreading The strife of uncomfortable relationships both personal and professional is threatening to tear up the Alliance from the inside despite the efforts of Alain Magnier and Orlando St Clair Thierry Dumont and Sebastien Noyer and even Raymond Payet and Jean Bellaiche leader of the Paris vampires who is fighting to establish a stable covenant with his own partner so he might lead by example As the war rages on and heartbreaking casualties mount on both sides the dark wizards keep searching for clues to understand and counter the strength of the Alliance while the blood bound Alliance partners hunt through ancient prejudices and forgotten lore to find an edge that can turn the tide of the war once and for all With new strength behind it the Alliance's leaders move to announce its existence to the whole world hoping to rally support against the dark wizards who threaten to destroy life as they know it Struggling to find its way in the expanding war the Alliance discovers that despite its advantages the partnerships are affecting the balance of magical power in the world which may be an even bigger threat than the war itself This second edition received minor revision and proofing for re release in honor of the publication of *Partnership Reborn* the final book in the series

Blood Revenge in Irregular Warfare Roberto Colombo, Emil Souleimanov, 2023-03-15 This book offers an original assessment of the ways in which the sociocultural code of blood revenge and its modern remnants shape irregular warfare Despite being a common driver of communal violence blood revenge has received little attention from scholars With many civil wars and insurgencies occurring in areas where the custom lingers strengthening our understanding of blood revenge is essential for discerning how conflicts change and evolve Drawing upon extensive multidisciplinary evidence this book is the first in the literature on civil war and insurgency to analyse the impact of blood revenge and its modern remnants on irregular warfare Even when blood revenge undergoes erosion its unregulated version still shapes the social fabric of insurgency although in different ways than its institutionalised counterpart At times of political instability the presence of a culture of retaliation weighs heavily on the dynamics of violent mobilisation target selection recruitment and disengagement This book brings in evidence from dozens of conflicts providing unprecedented insights into how a better understanding of blood revenge can improve military blueprints for irregular warfare This book will be of much interest to students of insurgency terrorism military and strategic studies anthropology and sociology as well as to decision makers and irregular warfare professionals

From Blood Diamonds to the Kimberley Process Franziska Bieri, 2016-04-15 In the late 1990s several non governmental organizations NGOs focused world attention on the issue of conflict diamonds which funded wars massive death and refugee crises across Central and West Africa Several governments NGOs and key industry players engaged in negotiations under the so called Kimberley Process KP A voluntary global agreement came into effect leading to a substantial decline in illicit diamond trade Despite its importance in international affairs the KP remains understudied in academia Franziska Bieri's book provides the first comprehensive account of the KP and is the first to reveal how NGOs have become critical actors in their own right possessing the ability to directly influence policies and to participate in the decision making and the implementation of global agreements In developing this argument Bieri explains why the NGO campaign to raise awareness was successful why a rapid and comprehensive resolution on such a complex global problem was possible how the tripartite negotiations between states NGOs and industry developed during the implementation of the agreement which is an on going process Based on extensive personal interviews with prominent campaigners leading bureaucrats and industry officials hundreds of KP publications official UN documents industry news and NGO reports this timely book allows for a much needed engagement in contemporary debates about the campaign against conflict diamonds the Kimberley Process and the themes defining today's global governance arena

Violent internal conflicts in more and more countries are ruining the lives of millions of people and undermining the ability of their governments to provide security and a tolerable economic existence

The contributors to this book take a new view of the reasons for this grave development in Africa the Balkans Central Asia and elsewhere

They question traditional analyses of conflict which rely primarily on ethnic religious and cultural explanations since these do not take account of the increasingly obvious link between the growing scarcity of renewable resources and violent conflict in developing countries

Shortages of cropland fresh water woodfuel pasture and marine resources cannot be ignored

At the same time this book argues that one cannot understand domestic conflicts simply in environmental terms

For environmental scarcity functions in a society within a complex matrix of historically derived economic and political situations

In particular an unequal social distribution of resources exacerbates scarcity and fuels popular conflict
