### **OVERVIEW**

For this assignment, you will discuss your own development over your lifetime and how it relates to the developmental concepts discussed throughout this course. The purpose of this paper is for you to demonstrate an ability to apply a working knowledge of the theories, terminology, and concepts of human growth and development by identifying your life as it relates to key human growth and development concepts. You will incorporate empirical studies related to development, readings, and videos.

### **INSTRUCTIONS**

You will use developmental theories and concepts to analyze your own developmental processes focusing on adulthood. Use a variety in your sentence structure and wording. You should not use direct quotes, but rather summarize and paraphrase insight from your sources. You will use your textbook and at least 3 other scholarly sources (no less than 4 sources total) to create your developmental analysis. Your paper must be at least 10 pages including a title page, abstract, 6 pages in the body, and a reference page. Remember: the title page, abstract, and references are not a part of the body of the paper; you must have at least 7 pages of content besides these.

**Title Page** – Use current APA format.

Explain how these stages are relevant to your own childhood and adolescent developmental processes. You must identify specific stages, characteristics of that stage and offer explanation and examples that parallel to your own developmental processes.

##### **Nature versus Nurture**

Examine the portion of your textbook or outside references that detail(s) elements of the nature versus nurture influences.
