Zaheera Jinnah

E2020 Political Science:

Informal Livelihoods and Governance in South Africa Zaheera Jinnah, 2022-09-13 This open access book offers a compelling account of everyday life livelihoods and governance in post apartheid South Africa among the urban poor and marginalized anchored in and through a critique of the concept of informality or living outside of the state its laws services and protection Using a case study of the Zama Zama loosely translated from the isiZulu as to hustle or to strive and colloquially used to refer to those working as informal artisanal miners on Johannesburg s numerous disused and abandoned gold mines the book documents an ethnography of this community s everyday lives struggles and hopes It provides an intimate account of a community its social relations and its political relationship to the state The narratives of the Zama Zama are used to raise broader questions about precarity belonging and governance in post apartheid South Africa and suggest that pervasive informality could risk the country s democratic order *Computing Handbook* Teofilo Gonzalez, Jorge Diaz-Herrera, Allen Tucker, 2014-05-07 The first volume of this popular handbook mirrors the modern taxonomy of computer science and software engineering as described by the Association for Computing Machinery ACM and the IEEE Computer Society IEEE CS Written by established leading experts and influential young researchers it examines the elements involved in designing and implementing software new areas in which computers are being used and ways to solve computing problems The book also explores our current understanding of software engineering and its effect on the practice of software development and the education of software professionals *Official Gazette of the United States Patent and Trademark Office*, 2004 Right to Development and Illicit Financial Flows from Africa Serges Djoyou Kamga, Gerard Emmanuel Kamdem Kamga, Arnold Kwesiga, 2024-02-15 Gerard Emmanuel Kamdem Kamga Serges Djoyou Kamga and Arnold Kwesiga explore a relatively new phenomenon namely referred to as illicit financial flows that aim to impoverish the African continent and prevent its economic development There is a direct relationship between illicit financial flows and failed initiatives to realize the right to development on the continent For instance in 2016 Africa received 41 billion towards public development while 50 billion left the continent through illicit financial flows The gap between recent economic achievements on the continent and its state of generalized underdevelopment coupled with rampant poverty corruption prolonged economic crisis and political instabilities signals an issue with resource allocations The systematic theft of resources by multinational corporations and criminal networks is a hard blow to the idea of people driven development in line with the Pan African vision of an integrated prosperous and peaceful Africa proclaimed by Agenda 2063 Right to Development and Illicit Financial Flows from Africa Dynamics Perspectives and Prospects provides insights into the dynamics and perspectives on illicit financial flows and its dire impacts on the right to development and development initiatives across the continent Geographic Data Analysis Using R Xindong He, 2024-08-02 This book is structured to encompass both the foundational and specialized aspects of quantitative analysis in geography The basic content covers descriptive statistical analysis and

correlation analysis of geographical data while the professional content delves into more advanced topics like linear regression analysis geographically weighted regression analysis time series analysis cluster analysis principal component analysis Markov chain analysis and geographical network analysis The methodologies span from widely utilized techniques to more recent developments and the data primarily originates from reputable sources in China The example code provided in the book can be executed using R packages available on the CRAN website This book is an invaluable resource for undergraduate and graduate students as well as researchers interested in learning and applying R for processing visualizing and analyzing geographic data It serves as an introductory course in quantitative methods in geography for students in geography departments Additionally it is an ideal supplementary text for applied methods courses across various disciplines that involve geographic data such as human and physical geography geographic information science ecology public health crime and economics
