Global Practices on Road Traffic Signal Control Keshuang Tang, Manfred Boltze, Hideki Nakamura, Zong Tian, 2019-05-03
Global Practices on Road Traffic Signal Control is a valuable reference on the current state of the art of road traffic signal control around the world. The book provides a detailed description of the common principles of road traffic signal control using a well defined and consistent format that examines their application in countries and regions across the globe. This important resource considers the differences and special considerations across countries providing useful insights into selecting control strategies for signal timing at intersections and pedestrian crosswalks. The book's authors also include success stories for coping with increasing traffic related problems examining both constraints and the reasons behind them. Presents a comprehensive reference on country by country practices on road traffic signal control. Compiles and compares approaches across countries. Covers theories and common principles. Examines the most current systems and their implementation. The Manual on Uniform Traffic Control Devices MUTCD by setting minimum standards and providing guidance ensures uniformity of traffic control devices across the nation. The use of uniform TCDs messages location size shapes and colors helps reduce crashes and congestion and improves the efficiency of the surface transportation system. Uniformity also helps reduce the cost of TCDs through standardization. The information contained in the MUTCD is the result of either years of practical experience research and or the MUTCD experimentation process. This effort ensures that TCDs are visible recognizable understandable and necessary. The MUTCD is a dynamic document that changes with time to address contemporary safety and operational issues **Manual on Uniform Traffic**
