Service Learning as Pedagogy in Early Childhood Education Kelly L. Heider, 2016-10-14 This book presents the most recent theory research and practice on service learning as it relates to early childhood education. It describes several service learning programs many of which were developed to better prepare pre service teachers for the challenges they face in today's early childhood classrooms including class size ever changing technology diversity high stakes testing parental involvement or the lack thereof and shrinking budgets. The book shares stories of positive outcomes from pre service teachers who having participated in service learning programs report a shift in their attitudes and beliefs including an increased empathy for others a heightened sensitivity to student differences more democratic values and a greater commitment to teaching. In addition the book examines the effects of service learning and positive outcomes for children and teacher educators as well. Schools today face an increasing number of language learners the mainstreaming of special population students and working with a standards driven curriculum. All of these present new challenges for teachers as they attempt to meet their students educational needs. As a result of this new classroom environment and the educational needs they present teacher educators must now seek different approaches to prepare prospective teachers to meet these needs because the traditional approaches to teacher preparation such as coursework independent of fieldwork are no longer effective in equipping teachers to address these issues. This book examines in detail the new approach of service learning.

Being an Early Childhood Educator Felicity McArdle, Lyn Zollo, 2020-07-16 This book will be an invaluable resource for pre service early childhood educators as they prepare not only for their placements but also their future careers. The examples activities and reflection points are realistically representative of events and contexts across the birth to 8 years age range. These features effectively scaffold the pre service teacher's preparation and thinking for socially just early childhood teaching. Associate Professor Susan Krieg Early Childhood Program Coordinator Flinders University Making the transition from pre service teacher to professional can be challenging. From field experience placements or pracs to the early years in the classroom this text provides a comprehensive and practical guide to help every early childhood student develop their professional expertise and confidence. The authors prompt students to bring together theories learned at university with ways of working with real children in real settings framed by the principles of recognising equity and diversity. There is clear guidance on how to be successful on prac including understanding the many roles pre service teachers will be expected to take on and the important relationships they need to build. Lesson planning understanding curriculum documents and fail safe strategies for teaching in a wide range of situations and with children from wide ranging backgrounds are all covered in depth. Suggestions for tutorial activities and further reading accompany each chapter prompting students to engage in critical reflection and self evaluation while the On track on prac feature will help pre service teachers monitor and review their progress. Readers are also provided with insights from real world pre service students and professional teachers who have mentored many different students on prac.

This is an essential text for all students undertaking practicums and preparing for the first years of their professional careers

Contemporary School Playground Strategies for Healthy Students Brendon Hyndman, 2017-06-12 This book is a research guide for implementing contemporary playground strategies to promote active healthy students A number of school playground strategies have succeeded in reducing the decline in students activity levels by introducing equipment and policies that encourage further engagement The book outlines these strategies and ideas and offers insights into their multiple levels of influence on engaging students in school playground activities that can promote student health It also discusses previous investigations into the effect of playground strategies on students activities and the differences between structured and unstructured playground activities investigations that have explored the translatability and feasibility of specific school playground strategies and potential recommendations for future school playground research It also provides observations on the features students desire in their playgrounds and what features are important in terms of safe activities enjoyment levels which in turn offers suggestions for future research directions
