## **Congo The Epic History Of A People:**

**Congo** David van Reybrouck, 2014 Van Reybrouck reviews some of the most dramatic episodes in Congolese history from the slave trade to the ivory and rubber booms from the arrival of Henry Morton Stanley to the tragic regime of King Leopold II from global indignation to Belgian colonialism from the struggle for independence to Mobutu's brutal rule and from the world famous Rumble in the Jungle to the civil war over natural resources that began in 1996 and still rages today

*African Testimony in the Movement for Congo Reform* Robert Burroughs, 2018-06-27 The humanitarian movement against Leopold's violent colonisation of the Congo emerged out of Europe but it depended at every turn on African input Individuals and groups from throughout the upper Congo River basin undertook journeys of daring and self sacrifice to provide evidence of atrocities for the colonial authorities missionaries and international investigators Combining archive research with attention to recent debates on the relation between imperialism and humanitarianism on trauma witnessing and postcolonial studies and on the recovery of colonial archives this book examines the conditions in which colonised peoples were able to speak about their subjection and those in which attempts at testimony were thwarted Robert Burroughs makes a major intervention by identifying African agency and input as a key factor in the Congo atrocities debate This is an important and unique book in African history imperial and colonial history and humanitarian history [Dramatic Global Population Growth Embraces the Growing Older Population](#)

Edward A McKinney, 2018-11-16 The world is witnessing a dramatic demographic population growth explosion across all age groups that had its beginning around the early 1800s when the first billion people in population was recorded Most importantly has been an increasing growth in the older population Does population aging matter in the twenty first century Yes it matters because as research has pointed out the increasing older population globally will have a significant impact on all essential societal systems the family pensions and retirement and financial institutions as well as medical health and social systems This growth explosion or phenomenon will affect all continents countries and regions regardless of economic political and military power Causative factors for this global growth in population have come about primarily as a result of medical advances innovations agricultural development and the industrial revolution especially the development of railways seaways and highways A major emphasis of the book focuses on several very important factors the growing older population as aforementioned especially its impact on all of essential societal systems and the subject of ageism Ageism becomes extremely important considering that the growing older population the silver tsunami represents the new majority This new majority will no longer be ignored Gerontologists for years have attempted to call attention to the fact Expectations for old people are based on negative age stereotypes Members of American society generally expect and even encourage the aged to be asexual intellectually rigid unproductive ineffective and disengaged Seniors are supposed to stay out of the way sit in their rocking chairs and enjoy the golden years They are expected to be inactive invisible but happy Levin J and Levin W Ageism Prejudice and Discrimination Against the Elderly California Wadsworth Publishing 1941 pp 97 98

Speaking of being ignored why aren't more members of the older population involved at the decision making tables in shaping a society for all ages After all they would bring years of experiences skills knowledge and values for creating a society for all ages in the twenty first century with justice and human rights for all Currently there is a global movement with a goal of the eradication of ageism in all of its forms Some will recall from several decades ago the Grey Panther Movement in America with a similar mission of the eradication of all injustices at the time being experienced by the older population The current movement says The time is now not later One major social injustice being experienced by the growing old population globally is the lack of income security in old age including the lack of access to other essential services such as medical health and social including long term care More than 50 percent 51 percent of older persons globally do not have basic income security or a social pension in retirement A more alarming statistic is that in Sub Saharan Africa forty seven countries eight two percent 82.5 of retirees do not have a social pension Yes for the older population the new majority the time is now for correcting the aforementioned injustices Maybe what is needed is a human seismic force comprising the new majority to initiate a social movement with a goal of the eradication of all forms of ageism and ensuring that the growing older population will live in dignity and respect in later life including social protection pensions *Congo* David Van

Reybrouck,2016-11 **A Nervous State** Nancy Rose Hunt,2015-12-30 In *A Nervous State* Nancy Rose Hunt considers the afterlives of violence and harm in King Leopold's Congo Free State Discarding catastrophe as narrative form she instead brings alive a history of colonial nervousness This mood suffused medical investigations security operations and vernacular healing movements With a heuristic of two colonial states one nervous one biopolitical the analysis alternates between medical research into birthrates gonorrhea and childlessness and the securitization of subaltern therapeutic insurgencies By the time of Belgian Congo's famed postwar developmentalist schemes a shining infertility clinic stood near a bleak penal colony both sited where a notorious Leopoldian rubber company once enabled rape and mutilation Hunt's history bursts with layers of perceptibility and song conveying everyday surfaces and daydreams of subalterns and colonials alike Congolese endured and evaded forced labor and medical and security screening Quick witted they stirred unease through healing wonder memory and dance This capacious medical history sheds light on Congolese sexual and musical economies on practices of distraction urbanity and hedonism Drawing on theoretical concepts from Georges Canguilhem Georges Balandier and Gaston Bachelard Hunt provides a bold new framework for teasing out the complexities of colonial history **The Cold War** Spencer C. Tucker,2020-10-27 This sweeping reference work covers every aspect of the Cold War from its ignition in the ashes of World War II through the Berlin Wall and the Cuban Missile Crisis to the collapse of the Soviet Union in 1991 The Cold War superpower face off between the Soviet Union and the United States dominated international affairs in the second half of the 20th century and still reverberates around the world today This comprehensive and insightful multivolume set provides authoritative entries on all aspects of this world changing event including wars new military technologies

diplomatic initiatives espionage activities important individuals and organizations economic developments societal and cultural events and more This expansive coverage provides readers with the necessary context to understand the many facets of this complex conflict The work begins with a preface and introduction and then offers illuminating introductory essays on the origins and course of the Cold War which are followed by some 1 500 entries on key individuals wars battles weapons systems diplomacy politics economics and art and culture Each entry has cross references and a list of books for further reading The text includes more than 100 key primary source documents a detailed chronology a glossary and a selective bibliography Numerous illustrations and maps are inset throughout to provide additional context to the material

*The Problems of Genocide* A. Dirk Moses, 2021-02-04 Historically delineates the problems of genocide as a concept in relation to rival categories of mass violence

*Religion and Contemporary Politics* Timothy J. Demy, Jeffrey M. Shaw Ph.D., 2019-09-19 With respect to the countries of the world this work addresses two basic questions How does religion affect politics in this country and How does politics affect religion in this country Although there are many books on the topics of religion and politics reference works that consider the two together are few with those that do exist primarily addressing theory rather than trends The present work does the latter contextualizing them within regional and national boundaries In so doing it recognizes the power of political and religious ideas and movements on individuals communities and nations making the work a valuable resource for several disciplines among them political science international relations religion and sociology The work focuses on the interplay of religion and politics in countries around the world with an emphasis on the post 2000s It is organized by global geographic regions including Africa Central and South America and the Middle East and presents countries alphabetically within those sections Each region has a brief overview of the political religious dynamics of the area so readers can compare and contrast the dynamics between and among countries in a region The work also includes an introduction sidebars and a bibliography

1914: The Year the World Ended Paul Ham, 2013-10-01 Few years can justly be said to have transformed the earth 1914 did In July that year Germany Austria Hungary Russia Britain and France were poised to plunge the world into a war that would kill or wound 37 million people tear down the fabric of society uproot ancient political systems and set the course for the bloodiest century in human history In the longer run the events of 1914 set the world on the path toward the Russian Revolution the Treaty of Versailles the rise of Nazism and the Cold War In 1914 The Year the World Ended award winning historian Paul Ham tells the story of the outbreak of the Great War from German British French Austria Hungarian Russian and Serbian perspectives Along the way he debunks several stubborn myths European leaders for example did not stumble or sleepwalk into war as many suppose They fully understood that a small

conflict in the Balkans the tinderbox at the heart of the continent could spark a European war They well knew what their weapons could do Yet they carried on They accepted and in some cases even seemed to relish what they saw as an inevitable clash of arms They planned and mapped every station on the path to oblivion These pied pipers of the apocalypse chose war in the full knowledge that millions would follow and die on their orders 1914 The Year the World Ended seeks to answer the most vexing question of the 20th century Why did European governments decide to condemn the best part of a generation of young men to the trenches and four years of slaughter during which 8 5 million would die **History Today** Peter Quennell,1990 *Memoranda and formulæ, fortification and topography* Howard Molyneux Edward BRUNKER,1898

The People's Cyclopedia of Universal Knowledge William Harrison De Puy,1881 **The New People's Cyclopedia of Universal Knowledge** ,1887 The Congo from Leopold to Kabila Georges Nzongola-Ntalaja,2013-07-18 The people of the Congo have suffered from a particularly brutal colonial rule American interference after independence decades of robbery at the hands of the dictator Mobutu and periodic warfare which continues even now in the East of the country But as this insightful political history makes clear the Congolese people have not taken these multiple oppressions lying down and have fought over many years to establish democratic institutions at home and free themselves from foreign exploitation indeed these are two aspects of a single project Professor Nzongola Ntalaja is one of his country s leading intellectuals and his panoramic understanding of the personalities and events as well as class ethnic and other factors make his book a lucid radical and utterly unromanticized account of his countrymen s struggle His people s defeat and the state s post colonial crisis are seen as resulting from a post independence collapse of the anti colonial alliance between the masses and the national leadership This book is essential reading for understanding what is happening in the Congo and the Great Lakes region under the rule of the late President Kabila and now his son It will also stand as a milestone in how to write the modern political history of Africa **Literary News** ,1897 **Literary News** L.
