A Closer Look at the Consolidated State Performance Report, Part I: Manual Entry

The National Center for Homeless Education (NCHE) developed a series of briefs focused on ensuring data submitted to the U.S. Department of Education (ED) meet quality standards and conform to program requirements. The series supplements information provided in ED's [file specifications](#), which are the primary guidance documents on ED Facts data collections. As the seventh in the series, this brief provides information about the data collection and submission process for data submitted manually in Part I of the [Consolidated State Performance Report](#) (CSPR).

Data Collected by the CSPR, Part I

While the majority of the CSPR is prepopulated by data already stored within the ED Facts data warehouse, certain data related to local educational agencies (LEAs) that reported data and American Rescue Plan Homeless Children and Youth (ARP-HCY) subgrants under ARP Homeless I and ARP Homeless II are manually entered by state educational agencies (SEAs). This includes:

- Data on the number of LEAs with and without subgrants that reported data on students who experienced homelessness are submitted in Question 1.5.1.
- Data on the number of LEAs that received ARP Homeless I funds are submitted in Question 1.5.4.
- Data on the number of LEAs that received ARP Homeless II funds are submitted in Question 1.5.5.
- Data on the amount of ARP Homeless I and ARP Homeless II funding awarded to each LEA are submitted in Question 1.5.6.

All LEAs that participated in a consortium or regional subgrant are considered subgrantees and must be included in Questions 1.5.1, 1.5.4, 1.5.5, and 1.5.6.

Important Dates

CSPR, Part I Manual Entry data are due by February 26, 2025, for School Year (SY) 2023-24. The CSPR online tool will open on January 29, 2025; data may be entered any time between then and February 26, 2025. Once the data have been submitted to ED, the information will undergo a data quality review. States will then have the opportunity to submit data or related comments again as needed.

Data Quality Checks

During the data quality review, information submitted by states will be examined to ensure that it is accurate, timely, and complete. Data checks will be based on the [CSPR Part I and Part II Business Rules Single Inventory](#) (CSPR BRSI) published by ED. The questions below are based on rules pertaining to the CSPR manual entry questions on McKinney-Vento, ARP Homeless I, and ARP Homeless II subgrantees contained in

Audit of Selected Portions of the U.S. Department of Education's Oversight of the Consolidated State Performance Reports Office of Inspector General (ED), Washington, DC., 2008. This report presents the results of an audit by the Office of the Inspector General to determine whether the Department of Education's Office of Elementary and Secondary Education (OESE) provided sufficient oversight of graduation and dropout rates submitted by states in their Consolidated State Performance Reports to ensure the rates were supported by reliable data. The review period covered July 1, 2003 through June 30, 2004. Audit findings indicate that more emphasis was needed on data reliability and comparability across states. Six recommendations are presented: 1. Stress to states the importance of using a longitudinal student tracking system. 2. Disapprove any future graduation rate formulas that do not use a true cohort except for states that are in the process of developing data systems that would enable them to calculate a cohort graduation rate. 3. Continue to impress upon states the importance of data quality and the need to provide regular guidance, training, and monitoring of their local educational agencies. 4. Publish a list of data definitions that states will be required to use in No Child Left Behind (NCLB) reports. 5. Continue to develop and implement written policies and procedures to monitor states that are in the process of developing data collection systems to ensure the systems will collect student data in accordance with the requirements in NCLB. 6. Periodically review procedures to monitor the accuracy of the data used by the states and districts to compute graduation rates and make any necessary adjustments. In comments to the draft report, OESE generally agreed with the finding and most of the recommendations. The full text of OESE's comments on the draft report is included as an attachment.
