Every year CR asks members about problems they've had with their vehicles in up to 20 areas over the previous 12 months. We use their responses to calculate reliability ratings for major mainstream models. We calculate the brand-level score on a 0-100 point scale by first examining the weighted overall problem rate for all models within a brand for each model year. Then the brand reliability score was calculated by averaging results from 2022 to 2024, and some early 2025 data for each brand, where there was sufficient sample size for at least two models. Due to insufficient data, we do not rank Alfa Romeo, Chrysler, Dodge, Fiat, Infiniti, Jaguar, Land Rover, Lincoln, Lucid, Maserati, Mercedes-Benz, Mitsubishi, Porsche, and Ram.
