John Touliatos, Norma H. Compton

Developmental Psychology Observation Paper:

Social Skills Assessment and Training with Children Larry Michelson, Don P. Sugai, Randy P. Wood, Alan E.

Kazdin, 2013-11-21 The purpose of this book is to provide readers with sufficient knowledge regarding social skills assessment and training with children so that they can implement and evaluate social skills programs on their own. Increased interest in promoting children's social skills has stemmed in part from advances in research that have shown the importance of childhood social competency for adjustment in both childhood and adulthood. There is a growing need for assessment and training methods that can be utilized by diverse groups of professionals and paraprofessionals. This book is intended for mental health workers, teachers, educators, clinicians, and child care personnel. The book thoroughly reviews the literature to acquaint readers with relevant findings on social skills and to provide discussion regarding contemporary issues and assessment techniques. Subsequently, comprehensive procedures in the training of children's social skills are presented. Readers are also provided with 16 detailed training modules, each of which comprises a rationale, instructions, scripts, and homework assignments. These modules are designed to permit effective implementation of social skills training programs. Moreover, they provide a structured and programmatically designed format that builds in clinical flexibility for their use with individual children or groups of children. These modules are followed by a clinical issues section designed to address potential obstacles to effective training. Following these major sections, two appendixes have been included in the book. The first appendix is a step-by-step description of how to conduct an assessment. **The Oxford Handbook of the**

Development of Imagination Marjorie Taylor, 2013-05-02 The Oxford Handbook of the Development of Imagination provides a comprehensive overview of research on the role of imagination in cognitive and social development and its link with children's understanding of the real world. *Progress in Behavior Modification* Michel Hersen, Richard M. Eisler, Peter M. Miller, 2013-10-22 Progress in Behavior Modification Volume 9 covers the developments in the study of behavior modification. The book discusses the future of behavior therapy, an examination of the rationale and treatment effectiveness of overcorrection, and the therapeutic innovations and emerging conceptual challenges in the behavioral treatment of test anxiety. The text also describes the conceptual and empirical status of rational emotive therapy, the behavior modification procedures for training chronically institutionalized schizophrenics, and the behavior modification of the elderly. The behavioral assessment and training of children's social skills are also considered. Psychologists, psychiatrists, and educators will find the book invaluable. **Parents and Toddlers in Groups** Marie Zaphiriou Woods, Inge-Martine

Pretorius, 2013-05-13 This book explores how psychoanalytic principles can be applied when working with parents and toddlers in groups. Illustrated with lively observations, it discusses how these parent-toddler groups can be an effective medium for early intervention during a period which is critical for the negotiation of a child's central emotional issues. Parents and Toddlers in Groups demonstrates the particular challenges of the toddler phase and its contribution to an

individual's future development and relationships Focusing on an approach developed by the Anna Freud Centre and comprising chapters from a range of expert contributors topics include the history theory and practice of parent toddler groups at the Anna Freud Centre how this approach has been adapted and applied across a wide range of settings and cultures the findings of research projects carried out on parent toddler groups This book will be a valuable resource for practitioners wanting to reach parents and young children in community educational and a variety of other settings It will also appeal to child psychotherapists and psychologists working in CAMHS teams
