Board developed the basis of the study from its 1972 special study of air taxis the Board s accident statistics and accident investigation experience and from an extensive field survey The study discusses the operational maintenance training and regulatory areas of the industry and analyzes safety deficiencies The Board concludes that the basis to sound commuter airline safety must come from a coordinated program which includes the implementation of the new 14 CFR 135 Federal Aviation Administration surveillance and enforcement efforts and a strong safety oriented posture by commuter managers Coupled with this program must be the permanent recognition by the Federal Aviation Administration of the commuter industry as an airline industry rather than as a segment of general aviation Finally the Safety Board makes a number of safety recommendations to the FAA designed to enhance the commuter airline industry     *Monthly Catalog of United States Government Publications* ,1976     **The Naval Institute Guide to Combat Fleets of the World, 2005-2006** Eric Wertheim,2005 Internationally acknowledged as the best one volume reference to the world s naval and paranaul forces this popular Naval Institute guide is both comprehensive and affordable     Report ,     **Defense & foreign affairs handbook** Gregory R.
