academic resources provided by their institution to learn about generative AI. Students at higher cost institutions (20,000+) are more likely (36.03%) to use academic resources compared to those at lower cost institutions (27.34%). Private school students (35.90%) are significantly more likely to use resources compared to public school students (28.43%). International students were more avid users than domestic students of college instructional resources about generative AI. Student complaints about being unable to find information about how to use AI were quite common. Students face challenges such as lack of awareness, institutional discouragement, and unclear policies on AI use. They express a need for more structured education, clear guidelines, and greater access to AI tools. The survey suggests that while institutional resources for learning about generative AI exist, most students rely on informal methods such as peers, AI tools, and online content. There is a clear need to expand structured AI education to better support student learning.
