

Queen's Bohemian Rhapsody Song Analysis

Topic: Art | Words: 172 | Pages: 1

I think that Queen's Bohemian Rhapsody is a song of the decade for the 70s. It is an obvious choice, but I think it is really difficult to name a more iconic and long-standing track. Being a rock ballad, it combines unexpected shifts of melody and style to the point that it is honestly strange to think that it became as popular as it is. That fact, to me, is a testament to the status of the Queen in pop culture and their musical prowess. While doing light research about the song, I also stumbled upon an interesting fact about the band itself. Did you know that there is a statue of Freddie Mercury in Switzerland? Speaking of Bohemian Rhapsody in specific though, I am fairly confident it is one of the most well-known songs not just from the 70s, but in all of music history. People from all around the world know the lyrics and can sing them together, which would be surprising in the case of almost any other song.
