Undoubtedly the progressive discovery of the body itself as a source of feelings and sensations as well as exploring the different possibilities of action and bodily functions constitutes necessary experiences on which children's thinking is built. Furthermore the affective relationships established in psychomotor education situations and particularly through play are essential for the emotional development of children. Physical Education Initiatives for Early Childhood Learners offers globalized educational practices, didactic approaches and proposals for intervention around motor development in the children ages 0-6 years. The book specifically explores laterality, coordination, relaxation, rhythm, etc. and how these are achieved through games, music and motor stories. This book is ideal for early childhood educators, physical education teachers, administrators, daycares, preschools, early childhood learning centers, researchers, academicians and students interested in physical education's role in early child development.

In all six of its volumes *The Broadview Anthology of British Literature* presents British literature in a truly distinctive light. Fully grounded in sound literary and historical scholarship, the anthology takes a fresh approach to many canonical authors and includes a wide selection of work by lesser known writers. The anthology also provides wide ranging coverage of the worldwide connections of British literature and it pays attention throughout to issues of race, gender, class and sexual orientation. It includes comprehensive introductions to each period providing in each case an overview of the historical and cultural as well as the literary background. It features accessible and engaging headnotes for all authors, extensive explanatory annotations and an unparalleled number of illustrations and contextual materials. Innovative, authoritative and comprehensive, *The Broadview Anthology of British Literature* has established itself as a leader in the field. The full anthology comprises six bound volumes together with an extensive website component; the latter has been edited, annotated and designed according to the same high standards as the bound book component of the anthology and is accessible by using the passcode obtained with the purchase of one or more of the bound volumes. For the second edition of this volume a number of changes have been made. Elizabeth Gaskell's *Our Society at Cranford* has been added, as has Anthony Trollope's *A Turkish Bath*. Charles Dickens is now represented with a number of short selections. The selection of poems by D. G. Rossetti has been expanded considerably; the entire 1870 *House of Life* sequence is included, as is that by Michael Field. A selection of poems by two key figures who also

appear in the anthology's twentieth century volume Thomas Hardy and W B Yeats is also now included Several of the Contexts sections in the volume have been expanded notably The Place of Women in Society which now includes material concerning the Contagious Diseases Acts and Britain Empire and a Wider World which now includes a section on the Great Exhibition of 1851 The volume will also include additional visual material including four more pages of full color illustrations Inevitably some selections have been dropped from the bound book these will all remain available however on the anthology's website component The most significant change in that direction is Dickens's A Christmas Carol As well as remaining available on the website that work like Hard Times Great Expectations and approximately 100 other titles from the Victorian period is available as a stand alone volume in the Broadview Editions series and may be added at little or no additional cost to the student in a shrink wrapped combination package
