

BOOK / BOOK CHAPTER REVIEW GUIDELINES

A book review is a critical evaluation of a book. A book review does not only tell you what a book is about, but whether it achieves what it is trying to do by making an argument. The most important element of a review is that it is a commentary, not merely a summary. Therefore, a book review is more than a summary of the content (even though this is an important component), but *a critical analysis of the book and your reactions to it*.

While you are reading the book, take notes about the following issues:

- What is the author's main goal in writing this book? (Convince you of his position on a controversy? Explain the background of an event? Raise awareness of a particular issue?)
- What are the author's main points?
- What kind of evidence does the author provide to make his or her points? How convincing is this evidence?
- Is the book well written? (Easily understandable? Good style?)
- What group of readers would find this book most useful (Lay people? Students? Experts in the area?)

THE COMPONENTS OF A BOOK (CHAPTER) REVIEW:

I) Introduction (one or two short paragraphs)

- Bibliographic information (author, title, date of publication, publisher, number of pages, type of book)
 - Who is the author and where he/she stands in the genre or field of inquiry.
 - Link the title to the subject to show how the title explains the subject matter.
- The context of the book and /or your review – place it in a framework that makes sense to the reader
- Brief overview of the theme, purpose and your thesis about the book
