

1 HOW TO FIND MODEL

[illegible]

The Model is further identified by the last TWO letters in the model designation number, i.e., B-700 in the example, and is sometimes identified by additional letters or numbers. All present models and future variations will have numbers only following the basic model number. The lettering system has been designed to give to varied environments of usage names, there may be a large number of models. A complete list of models is referred to as MODEL VARIATIONS, will be found following each Data Parts List. Under the new system of assigning model variation numbers, the first variation from the standard model will begin with the letter "A" and the second with the letter "B", and so on. The Model Variation Numbering each Data Parts List will tell which letter number sequence is used on each variation. IN ADDITION TO AN ALPHABETIC OR ARABIC OR ROMAN numeral for the Model Variation Parts List. In the case of the same year shown above, by looking in the Model Variation List following the Basic Parts List for the B-700 series, one finds that the B-700-A02 has a special construction, a gear reduction assembly and that the gear reducer is mounted in the 1200 position. If for instance a gear is needed, i.e., for the gear reducer, then one goes to the Section 173 (reducer) and look up the part under the appropriate number in the year 2000.

You must also determine the basic TYPE of your engine. The TYPE is a Clinton engine & always shows as a 3000. **ENTER** following the 3000 number. . . 270000 is an example.

There are the 10 basic types of the 2000 models entered

- These are the Basic Types and are covered by the Data Type List. Whenever a part or assembly is not used on all Types, it will be noted. If no note appears, this means that the part will be found on ALL types.

SECTION 1: PRICE LIST contains descriptions of the various engine Series and up to date Supply prices will furnish the current prices for replacement engines with or without accessories. This is B of this section is a corrected Price List. ALWAYS CHECK PART NUMBERS WITH THE PRICE LIST to make sure that this part is available on the current PRICE LIST. ALWAYS ORDER BY PART NUMBER.
