Dream, Creativity, and Madness in Nineteenth-Century France Tony James, 1995-12-28 This is an important new analysis of the problematic relationship between dreams and madness as perceived by nineteenth century French writers thinkers and doctors Those wishing to know the nature of madness wrote Voltaire should observe their dreams The relationship between the dream state and madness is a key theme of nineteenth century European and specifically French thought The meaning of dreams and associated phenomena such as somnambulism ecstasy and hallucinations including those induced by hashish preoccupied writers philosophers and psychiatrists In this path breaking cross disciplinary study Tony James shows how doctors such as Esquirol Llut and Janet thinkers including Maine de Biran and Taine and writers for example Balzac Nerval Baudelaire Victor Hugo and Rimbaud grappled in very different ways with the problems raised by the so called phenomena of sleep Were historical figures such as Socrates or Pascal in fact mad Might dream be a source of creativity rather than a merely subsidiary automatic function What of lucid dreaming By exploring these questions Dreams Madness and Creativity in Nineteenth Century France makes good a considerable gap in the history of pre Freudian psychology and sheds new and fascinating light on the central French writers of the period Catalogue of the Library of the Mercantile Library Association of San Francisco San Francisco (Calif.). Catalog of the Library of the Mercantile Library Association of San Francisco Mercantile Library Association (San Francisco, Calif.). Library, 1874 High Culture Christopher Partridge, 2018-06-01 History is littered with evidence of humanity's fascination with drugs and the pursuit of altered states From early Romanticism to late nineteenth century occultism and from fin de siècle Paris to contemporary psychedelic shamanism psychoactive substances have played catalyzing people Yet serious analysis of the religious dimensions of modern drug use is still lacking the use of drugs and the pursuit of transcendence from the nineteenth century to the present day Beginning with the Romantic fascination with opium it chronicles the discovery of anesthetics the psychiatric and religious interest in hashish the bewitching power of mescaline and hallucinogenic fungi the more recent uses of LSD as well as the debates surrounding drugs and religious experience This fascinating and wide ranging sociological and cultural history fills a major gap in the study of religion in the modern world and our understanding of the importance of countercultural thought offering new and timely insights into the controversial relationship between drugs and mystical experience

Taming Cannabis David Alan Guba Jr, 2020-09-23 Despite having the highest rates of cannabis use in the continent France enforces the most repressive laws against the drug in all of Europe Perhaps surprisingly France was once the epicentre of a global movement to medicalize cannabis specifically hashish in the treatment of disease In *Taming Cannabis* David Guba examines how nineteenth century French authorities routinely blamed hashish consumption especially among Muslim North Africans for behaviour deemed violent and threatening to the social order This association of hashish with violence became the primary impetus for French pharmacists and physicians to tame the drug and deploy it in

the homeopathic treatment of mental illness and epidemic disease during the 1830s and 1840s Initially heralded as a wonder drug capable of curing insanity cholera and the plague hashish was deemed ineffective against these diseases and fell out of repute by the middle 1850s The association between hashish and Muslim violence however remained and became codified in French colonial medicine and law by the 1860s authorities framed hashish as a significant cause of mental illness violence and anti state resistance among indigenous Algerians As the French government looks to reform the nation s drug laws to address the rise in drug related incarceration and the growing popular demand for cannabis legalization *Taming Cannabis* provides a timely and fascinating exploration of the largely untold and living history of cannabis in colonial France *The Creative Imagination of Théophile Gautier* Louise Bulkley Dillingham,1927 *Bohemians* David Weir,2023-05-03 The nineteenth century Romantic myth of Bohemia emerged to describe the new conditions faced by artists and writers who after the previous system of aristocratic patronage collapsed were free to move around in search of success Yet most real life bohemians have scant interest in commercial gain and are not so itinerant after all Tracing these contradictions in bohemian cultures and lifestyles from the early nineteenth century to the present David Weir explores the myth of Bohemia as it developed in various forms of expression novels plays operas films and in key cities including Paris Munich and New York Weir concludes with a discussion of the legacy of Bohemia today as something outworn and dying an exhausted tradition that somehow continues Catalogue of the Library Mercantile Library Association (San Francisco, Calif.),1874 *Classified Catalogue of the Carnegie Library of Pittsburgh* Carnegie Library of Pittsburgh,1908 **Classified Catalogue of the Carnegie Library of Pittsburgh** Pittsburgh, Pa.
