## **Coal Mining Documentary Netflix:**

The Environmental Documentary John A. Duvall, 2017-05-18 While documentaries with themes of environmental activism date back at least to Pare Lorenz's films of the 1930s no previous decade has produced the number and quality of films that engage environmental issues from an activist viewpoint The convergence of high profile issues like climate change fossil fuel depletion animal abuse and corporate malfeasance has combined with the miniaturization of high quality recording equipment and the expansion of documentary programming to produce an unprecedented number of important and influential documentary productions The Environmental Documentary provides the first detailed coverage of the most important environmental films of the decade including their approach to their topics and their impacts on public opinion and political debate The text will also examine the processes of production and distribution that have produced this explosion in documentaries The films range from a high profile Hollywood production with theatrical distribution like *An Inconvenient Truth* to shorter independently produced films like *The End of Suburbia* that have reached a small audience of activists through video distribution and word of mouth

Allen,2025-09-30 Industrial memory in North East England examines how the region s industrial myth and memory have been articulated in the renegotiation of northernness The book offers a critical contextualisation of the concept of northernness and the English North and introduces the concept of the PopCultural Portfolio a mixed methods approach to conjunctural analysis in cultural and memory studies The book provides six richly illustrated case studies to demonstrate the practical application of cultural studies expansive and inclusive understanding of texts bringing together materials from North East football folk indie and exhibition culture to establish how the North East s industrial past continues to be remembered and functionalised as industrial memory In turn the conjunctural analysis demonstrates how industrial memory is articulated and mythologised as north east erness in contemporary popular culture **A Friendship in Twilight** Jack Miles,Mark C. Taylor,2022-07-05 In a time of plague fundamental questions become immediate and personal The pandemic droughts floods fire political violence the world has been grimly reminded of the proximity and inevitability of death Jack Miles and Mark C Taylor acclaimed public intellectuals and scholars of religion one a Christian and the other an atheist close friends for fifty years have spent their lives grappling with questions of ultimate concern At the onset of the COVID 19 pandemic locked down at home and facing an uncertain future Miles and Taylor embarked on an extended conversation about living and dying in an imperiled world A Friendship in Twilight is their plague journal In raw and searching letters written daily from the first lockdowns through the Capitol riot Miles and Taylor reflect on life during overlapping crises Amid the menace of the pandemic and the unceasing political turmoil they debate the lessons that a catastrophic present can teach about the future and how to read think live and face up to death Confronting the vulnerability of their aging bodies and the frailty of American democracy the two friends discuss why and how philosophical reflection matters for a wounded world Their conversations are imbued with an ever present sense of urgency about the worth of a life the fragility of existence and the uncertainty of endings Seamlessly moving from heartfelt emotion to philosophical speculation current events to great art and literature this book is a powerful and moving testament to the precarity of life and to enduring friendship Business Week ,2006 The Hollywood Reporter ,2006 Stories from the Mines United Studios of America,2006-09-01 At the beginning of the twentieth century hundreds of thousands of European immigrants came to northeastern Pennsylvania to

work in the coal mines Stories from the Mines chronicles the struggle of these miners to earn a decent wage alleviate dangerous working conditions and gain respect The perilous work the miners performed for extremely low pay Matkosky and Curr argue laid the foundation for America s Industrial Revolution and the modern labor movement This powerful DVD traces the miners epic human rights battle from their arrival in the United States to the Great Strike of 1902 and the inception of the United Mine Workers union Its companion book available separately blends dramatic reenactments and never before seen archival footage and photographs to recount a conflict that inspired the involvement of Clarence Darrow and Theodore Roosevelt Stories from the Mines highlights the indelible contribution to America s history made by anthracite coal and the men who mined it In Our Blood Matt Witt,1979 **Coal Country** Shirley Stewart Burns,Mari-Lynn Evans,Silas House,2009-11-24 In the long complex history of coal exploitation in Appalachia mountaintop removal MTR mining is the most destructive practice yet visited upon the land and its people Ancient forested mountainsides are blown up to extract the underlying coal and the resulting debris is dumped into nearby valleys and streams The politics and economics of mining in the region have long allowed coal companies virtually free rein but in recent years opposition to MTR has gained national momentum This illustrated volume like the powerful documentary film on which it is based gives voice to the growing chorus of protest against MTR mining in Appalachia through a collection of essays oral history commentary and images It features many of the personalities from the film in their own words as well as thoughtful essays by such eloquent voices as writers Wendell Berry and Silas House activist Judy Bonds journalists Michael Shnayerson and Denise Giardina and entertainers Kathy Mattea and Ashley Judd Illustrations include contemporary photography of this still beautiful region and of mining devastation and the affected landscapes communities and people by noted photojournalists such as Mark Schmerling Builder Levy and Vivian Stockman Sidebars feature excerpts from contemporary and historical literature poetry song lyrics drawings cartoons and ephemera **Hard Coal: Last Of The Bootleg Miners** ,2015 A fatal mining accident in the hills of Pennsylvania the subsequent suicide of the mine s owner and the forced abandonment of eight of the last 12 surviving anthracite mines in the United States These are the recent plagues that have defined the once proud and prosperous tradition of anthracite coal mining They are also the tragedies that have prompted the drastic transformation of our feature documentary film Hard Coal Last of the Bootleg Miners These family owned mines which were built by hand generations ago had fallen into near extinction The miners we interview have provided ample evidence that the federal government through the Mine Safety and Health Administration MSHA is orchestrating a deliberate crusade to push these mom and pop mines out of business so that multi national energy corporations can appropriate the miners land Although it was mine owner Pete Shingara who told our film cameras in 2005 The government won t take me out of here in handcuffs They ll take me out in a coffin it was his friend mine owner David Stu Himmelberger who executed that promise after his friend and employee Dale Reightler was accidentally killed at work in October 2006 We also explore what will likely happen if when energy monoliths

commandeer Pennsylvania's relatively eco friendly anthracite industry by adding some heart wrenching comparisons to the bituminous strip mining industry in Virginia and West Virginia where mountain top removal has replaced mining. Hard Coal: Last of the Bootleg Miners explores the near eradication of this group of hard working Americans who merely wish as their fathers and grandfathers before them to provide for their families while helping their country develop a sustainable energy policy. They don't want welfare. They don't want prison. They don't want to die in an accident or by their own hands. They just want to mine the anthracite whose veins run deep through their native soil. **Coal in Our Veins** Erin Ann

Thomas, 2013-06-15 In *Coal in Our Veins* Erin Thomas employs historical research, autobiography and journalism to intertwine the history of coal, her ancestors' lives, mining coal and the societal and environmental impacts of the United States' dependency on coal as an energy source. In the first part of her book she visits Wales, native ground of British coal mining and of her emigrant ancestors. The Thomases move to the coal region of Utah where they witnessed the Winter Quarters and Castle Gate mine explosions, two of the worst mining disasters in American history and the history of coal development in Utah form the second part. Then Thomas investigates coal mining and communities in West Virginia near her East Coast home, looking at the Sago Mine collapse and more widespread impacts of mining including population displacement, mountain top removal, coal dust dispersal and stream pollution, flooding and decimation. The book's final part moves from Washington D.C. and an examination of coal, CO<sub>2</sub> and national energy policy back to Utah for a tour of a coal mine and a consideration of the Crandall Canyon mine cave in, back to Wales and the closing of the oldest operating deep mine in the world and then to a look at energy alternatives, especially wind power in West Virginia and Pennsylvania. **Thunder on the Mountain** Peter A.

Galuszka, 2025-06-25 Scathing exposé of the coal industry. The New York Times Book Review. On April 5, 2010, an explosion ripped through Massey Energy's Upper Big Branch Mine, killing twenty-nine coal miners. This tragedy was the deadliest mine disaster in the United States in forty years, a disaster that never should have happened. These deaths were rooted in the cynical corporate culture of Massey and its notorious former CEO Don Blankenship and were part of an endless cycle of poverty, exploitation and environmental abuse that has dominated the Appalachian coalfields since coal was first discovered there. And the cycle continues unabated as coal companies bury the most insidious dangers deep underground, all in search of higher profits and hide the true costs from regulators, unions and investors alike. But the disaster at Upper Big Branch goes beyond the coalfields of West Virginia. It casts a global shadow, calling into bitter question why coal miners in the United States are sacrificed to erect cities on the other side of the world, why the coal wars have been allowed to rage, polarizing the country and how the world's voracious appetite for energy is satisfied at such horrendous cost. With *Thunder on the Mountain* Peter A. Galuszka pieces together the true story of greed and negligence behind the tragedy at the Upper Big Branch Mine and in doing so he has created a devastating portrait of an entire industry that exposes the coal black motivations that led to the death of twenty-nine miners and fuel the ongoing war for the world's energy future.
