Eric Alterman, Mark J. Green

Cnn Report Disturbingly Pins Democrats:

The Spirit of Democracy Larry Diamond, 2008-01-08 Diamond also dissects the causes of the recent democratic recession in critical parts of the world including the crime infested oligarchy in Russia the strong armed pseudopopulism of Venezuela the pathological corruption in Nigeria and the military security state of Pakistan He traces many of these failed and failing democracies to the curse of oil which stifles financial and electoral accountability as well as the willingness of established democracies to hold a firm line in support of civil society

The Book on Bush Eric Alterman, Mark J. Green, 2004-08-03 When George W Bush became president in January 2001 he took office with a comfortably familiar surname bipartisan rhetoric and the promise of calming a public shaken by the convulsions of impeachment and a contested election Then nine months later after the tragedy of 9 11 both the country and the world looked to him for leadership that could unite people behind great common goals Instead three years into his term George W Bush squandered the goodwill felt toward America turned allies into adversaries and ran the most radical and divisive administration in the history of the presidency The Book On Bush was the first comprehensive critique of a president who governed on a right wing and a prayer In carefully documented and vivid detail Eric Alterman and Mark Green two of the leading progressive authors advocates in the country not only trace the guiding ideology that ran through a wide range of W s policies but also expose a presidential decision making process that rather than weighing facts to arrive at conclusions began with conclusions and then searched for supporting facts
