contexts It brings together a range of theoretical and methodological frameworks from textual analysis archival research and audience study to offer for the first time a detailed consideration of the importance of the fashioning of film stars Fashioning Film Stars asks how does dress operate in relation to stardom to articulate particular identities gendered national classed ethnic sexual How precisely does film costume operate and how is it understood semiotically socially culturally Does star dress disappear against the body as clothes or speak out performatively as costume or spectacle It answers them in an engaging and accessible volume which will be of interest to film scholars and film fans alike
