Food, Language, and Society Natsuko Tsujimura, 2023-02-15 Food Language and Society Communication in Japanese Foodways examines the language of food in Japanese through the lens of cognitive science and cultural studies to explore intriguing ways in which language food and culture interact in the fabric of Japanese society The questions of how where and by whom food and food experiences are described provide abundant opportunities for investigating relationships between language and culture from multi disciplinary perspectives Linguistic analysis of the language of food enables us to understand cognitive information that motivates and influences people s rhetorical choices on foodways Detailed discussions reveal that loanwords mimetics cooking terms and metaphors serve as lynchpins to enrich the expressive power of the language of food Food discourse situated in broader social and cultural contexts also reflect social norms and cultural practices deeply embedded within and beyond our gustatory and culinary life Food narratives as in cookbooks and advertisements are an informative means for virtual interpersonal communication where individual and group identity is indexed providing a platform for reexamination of gender and other social norms as response to changes in society Examined from the interaction of linguistic and sociocultural perspectives Food Language and Society illuminates the form use and social meaning of the language of food

Now You're Talking Trevor Cox, 2018-09-18 A history of how humans developed our capacity for conversation and what might happen now that computers are catching up Trevor Cox has been described by The Observer as a David Attenborough of the acoustic realm In Now You re Talking he takes us on a journey through the wonders of human speech starting with the evolution of language and our biological capability to speak and listen and bringing us up to date with the latest computer technology Language is what makes us human and how we speak is integral to our personal identity But with the invention of sound recording and the arrival of the electrified voice human communication changed forever now advances in computer science and artificial intelligence are promising an even greater transformation And with it come the possibilities to reproduce manipulate and replicate the human voice sometimes with disturbing consequences Now You re Talking is the fascinating story of our ability to converse It takes us back to the core of our humanity asking important questions about what makes us human and how this uniqueness might be threatened On this illuminating tour we meet vocal coaches and record producers neuroscientists and computer programmers whose experience and research provide us with a deeper understanding of something that most of us take for granted our ability to talk and listen

Renaissance of Classical Allusions in Contemporary Russian Media Svitlana Malykhina, 2014-02-27 Renaissance of Classical Allusions in Contemporary Russian Media builds on a growing body of work concerning post Soviet media culture during the last transformative decade Making sense of the literary allusions in media discourse Svitlana Malykhina reminds us that allusions can serve as a primary marker of identity national and cultural and may also be a way of negotiating the gap between what has to be reported and what can be banned by censorship Malykhina presents the changes and continuities between rhetoric strategies of Soviet style media and postcommunist Russian media identifying the key literary and historical references in public discourse which are then picked up by the media The book analyzes the political cultural and social factors at play in the development and expansion of these allusions in both official and alternative discourses Examining the rise of the Internet which has remained wholly uncensored in Russia Malykhina reveals that the Russian Internet media

began to function as alternative mass media Yet the success of the Internet media has also brought complex and unintended consequences Malykhina offers an empirically rich examination of conventional classical allusions in media discourse focusing mainly on the rhetorical techniques by which subversive meanings of these references were generated **A**
