Choshu In The Meiji Restoration:

Choshu in the Meiji Restoration Albert M. Craig, 2000-09-26 When Commodore Perry arrived in Japan to open the country to Western trade in 1853 he found a medieval amalgam of sword bearing samurai castle towns Confucian academies peasant villages rice paddies upstart merchants bath houses and Kabuki Fifteen years later Japan was on its way to becoming the only non Western nation in the nineteenth century with a modern centralized bureaucratic state and industrial economy This book is a study of the Meiji Restoration that changed the face of Japan Prominent historian Albert M Craig tells its story through that of the domain of Choshu whose role in the formation of modern Japan was not unlike that of Prussia in Germany during the fifteen crucial years between 1853 and 1868 Whereas previous studies have stressed the role of discontented lower samurai and frustrated rich merchants and peasants in this transition claiming that they provided the motive power behind the political movements of the Restoration period this work sharply challenges these earlier interpretations Craig instead emphasizes the vitality of traditional values in Japan s early reaction to the West and foregrounds the critical contribution of the old society to the formation of the new Meiji state Choshu in the Meiji Restoration is a seminal work for scholars and students of Japanese history

Historians have long been aware of the richness and complexity of the intellectual history of modern Japanese politics Najita s study however is the first in a Western language to present a consistent and broad synthesis of this subject Najita elucidates the political dynamics of the past two hundred years of Japanese history by focusing on the interplay of restorationism and bureaucratism within the context of Japan s modern revolution the Meiji Restoration **East Asian International Relations in History** Kyu-hyun Jo, 2024-08-28 This book provides a sweeping overview of East Asian international relations in history from the nineteenth century onwards with a focus on Korea and its relationship with East Asia and the USA In contrast with many books which concentrate exclusively on the twentieth century this book offers a long term perspective on modernity and modernization in East Asia It addresses the tributary system the Meiji Restoration Japanese imperialism in East Asia and the Cold War in East Asia It also incorporates the First and Second Indochina Wars from Vietnam s perspective and expands the geographical scope of East Asia beyond the traditional framework of Korea Japan and China The book begins with the tributary system as a starting point of East Asian modernity in contrast to the old view that the tributary system was not a modern system It rejects the idea that Japan was modernizing while Korea remained stagnant and shows why Japanese colonialism continues to be controversial and problematic Through the book s emphasis on Vietnam s perspective of the Indochina Wars it places much value on nationalism anti imperialism and decolonization as forces of modernity and modernization Relevant to scholars and students

in history international relations and East Asian studies more broadly the book brings with it a novel fresh and innovative approach to East Asian history *Concise Dictionary of Modern Japanese History* Janet Hunter, 1984 This is a concise reliable guide to the people places events and ideas of significance from the Meiji Restoration to the present *Japan and Korea* Frank Joseph Shulman, 2013-10-23 First Published in 1971 This annotated bibliography of doctoral dissertations on Japan and Korea grew out of a decision to expand and bring up to date an earlier list entitled Unpublished Doctoral Dissertations Relating to Japan Accepted in the Universities of Australia Canada Great Britain and the United States 1946 1963 compiled by Peter Cornwall and issued by the Center for Japanese Studies in 1965 *The World of the Japanese Mind* Noriatsu Matsui, 2024-05-26 This book investigates the source from which the pressure to conform arises in Japanese society Even though the contemporary Japanese word for society Shakai has a history of 140 years it does not include the concept of respecting the individual but refers mainly to social frameworks and institutional aspects At the same time the traditional Japanese terms for society primarily Seken that have been in use for 1 400 years have embraced human relationships of the members of the group The hypothesis of this book is that there is no society as such in Japanese people s minds By proposing a new model the Hand Carved Tripod Model of conformity in Japan the book shows the structure of the pressure to conform The tripod is composed of ambiguous words the sense of belonging and the air or understanding that represents the unwritten rules and regulations of Seken Conformity in Japanese people s minds takes different forms from small residential groups to corporations at work and to nationwide associations but always dictates that people follow everyone else in the organization This book examines the sense of being blocked in Japan that has prevailed over 30 years during the period of the so called Three Lost Decades in Japan Examining phenomena such as low worker engagement karoshi death by overwork high middle age male suicide rates bullying in school and at work sex discrimination hereditary membership in the Diet and failure to provide adequate protection for whistle blowers this book reveals a common structure in Japanese minds lack of respect for individuality and the traditional and narrow sense of the world i e Seken This book will be beneficial to scholars and graduate students as well as to business people who are interested in understanding the behavior and minds of Japanese people from the psychological cultural and historical viewpoints It provides an integrated view of Japan s Seken as the platform that generates their conformity *The Meiji Restoration* W. Beasley, 1972-06-01 First there are questions concerning the role and relative importance of internal and external factors in the pattern of events Did the activities of the Western powers prompt changes in Japan that would not otherwise have taken place Or did they merely hasten a process that had already begun Similarly did Western civilization give a new direction to Japanese development or do no more than provide the outward forms through which indigenous change could manifest itself Was it a matrix or only a shopping list Second how far was the evolution of modern Japan in some sense inevitable Were the main features of Meiji society already implicit in the Tempo reforms only awaiting an appropriate trigger to bring them into being More narrowly was the character

of Meiji institutions determined by the social composition of the anti Tokugawa movement or did it derive from a situation that took shape only after the Bakufu was overthrown This is to pose the problem of the relationship between day to day politics and long term socioeconomic change One can argue paraphrasing Toyama that the political controversy about foreign affairs provided the means by which basic socioeconomic factors became effective or one can say with Sakata that the relevance of socioeconomic change is that it helped to decide the manner in which the fundamentally political ramifications of the foreign question were worked out The difference of emphasis is significant Finally have recent historians in their preoccupation with other issues lost sight of something important in their relative neglect of ideas qua ideas Ought we perhaps to stop treating loyalty to the Emperor as simply a manifestation of something else After all the men whose actions are the object of our study took that loyalty seriously enough certainly as an instrument of politics if not as an article of faith *Transactions of the Asiatic Society of Japan* Asiatic Society of Japan,1914 List of transactions v 1 41 in v 41

Journal of the Royal Central Asian Society Royal Central Asian Society,1962 *The Pursuit of Power in Modern Japan 1825-1995* Chushichi Tsuzuki,2000-04-13 This new history of modern Japan covers its remarkable transformation from a small country on the fringe of international politics to the major world power it is today Professor Tsuzuki traces Japan's pursuit of power first by military and then by economic means from her attempts to replace China at the centre of the Confucian Middle Kingdom through the Meiji nationalist response to the inroads of nineteenth century western imperialism and on to the post war USJapanese alliance powering the economic miracle of the last half of the twentieth century He examines Japan's political intellectual and industrial development throughout the last two centuries with special attention to the wars that were fought and argues that the history of Japan's modernization was closely linked to the growth of Japan's own imperialism Tsuzuki goes on to reveal how some of the factors which contributed to remaking Japan as an economic giant have also been responsible for her recent economic and political difficulties **Proceedings of the ... International Symposium on Asian Studies** ,1983 **Pacific Affairs** ,1968 Includes book reviews and bibliographies Sakamoto Ryoma and the Meiji Restoration Marius B. Jansen,1994 Jansen tells the story of the Restoration in the career and thought of Sakamoto Ryoma and to a lesser extent Nakaoka Shintaro each an example of the new type of political leader idealistic individualistic and patriotic **The Making of Modern Japan** Tim Megarry,1995 The overall series has been devised to offer a solution to many of the problems students encounter in accessing set course texts and it is hoped the anthologies will alleviate both pressure on library resources as well as ensuring higher levels of course completion All volumes benefit from introductory essays and appropriate linking passages and full textual references are included where available **Harvard Journal of Asiatic Studies** Serge Elisséeff,Charles Sidney Gardner,James Roland Ware,1961 Includes sections Reviews and Bibliography
