Bitcoin's potential of becoming a world currency Finn Schwarz, 2019-11-22 Seminar paper from the year 2019 in the subject Economics Finance grade 1.7 Northern Business School course International Financial Relations language English abstract In this thesis the crypto currency Bitcoin should be examined for its suitability as world currency or part of it In order to determine the potential of Bitcoin the terms currency and cryptocurrency must be explained and defined first Included in the definition of cryptocurrencies is the meaning of the Bitcoin system and the functionality will be roughly explained In this thesis the detailed technical aspects of the design of the Bitcoin system are greatly simplified and partially neglected After that follows a summary of advantages and disadvantages of cryptocurrencies in general that can be found in the literature This is primarily to gain insight into how the current perception of Bitcoin is in the public and to identify arguments that are likely to have a high impact on others' opinions After the consideration of the cryptocurrency Bitcoin follows a historical discussion with the concept of the world currency It will be investigated which approaches of a world currency already existed in the recent past and which are currently available This will lead to the identification of the driving forces and challenges that have an impact on the fiscal world order Thereon the findings about the Bitcoin system will be laid against the discussion about a world currency and potentials will be derived After a conclusive summary and a critical conclusion further research opportunities in the investigated fields are finally opened

Initial Coin Offerings as a new way to raise money? Investigating risks and opportunities from a consumer perspective, 2020-04-23 Bachelor Thesis from the year 2018 in the subject Business economics Review of Business Studies grade 1.3 LMU Munich language English abstract The term initial coin offering ICO seems to be the new hype of the crypto community It offers never before seen possibilities for consumers and companies but suffers from drawbacks like a lack of regulation In 2017 an impressive number of 4.6 billion USD was invested in ICOs Consequently ICOs are of large public interest Therefore it is interesting to determine what influences the behaviour of investors Accordingly the aim of this thesis is to investigate how general investment factors change in the disruptive environment of ICOs Hence in this context relevant general investment factors such as reputation media coverage corporate social responsibility risk and other factors including macroeconomic situation past performance and technological uncertainty are considered The results show that due to a lack of reliable measures for quantitative factors qualitative investment factors gain greater importance for ICOs Furthermore the highest importance was

assigned to media coverage which is important for investors who want to overcome the high information asymmetries that exist for ICOs
