

Case Management Study Guide

1. What is the purpose of case management?

To provide high-quality and cost-effective healthcare, to avoid fragmentation of care, and to help the client achieve the highest level of function

2. Why is case management needed in today's health care system (i.e., what are the driving forces behind case management)?

Aging population, higher acuity of chronic and complex diseases, consumer demand for healthcare, advanced technology and treatment, and more people who need healthcare (therefore restricting resources)

3. What are the goals in initiating a case management plan for a patient?

To satisfy the clients and families, save nurses time, to prevent readmission, prevent complications or disease progression, and to save the client and the healthcare setting money

4. When does case management begin and end?

The case management begins the second the patient is admitted and ends after they are discharged

5. What roles does the nurse play in managing the care of a patient? How does the nurse work with the healthcare team in regards to case management? What is the nurse responsible for?

The nurse is the care coordinator of the patient, as well as the client liaison and advocate. The nurse does the communicating with the healthcare team based on the client's needs that are beyond the client's control

6. What are the types of insurance providers/reimbursement?

Public (Medicare, Medicaid, Tricare/V.A.) , Private (Employer based, individual policies) , and other (Workman's comp, or Auto Insurance).
