China Mobile Repair Note:

THE CHOICE: ISSUES ON CHINA'S ROAD TO SOCIALISM JIANG Jing, 2021-11-18 This book mainly talks about why and how China has chosen socialism as well as major issues that have served to accelerate its transition from a new democratic country into a socialist society. It focuses on Sino Soviet relations and the Soviet assistance in China's economic development, national defense industry, science technology, education and culture in the early years of the People's Republic of China. It reviews the difficulties in China's economic recovery and the strategy of overall learning from the Soviet Union over that same period. It elaborates on the strategy of heavy industry oriented development and the collectivization of agriculture for China's transition to socialism. Using abundant historical examples, it will not only enable readers to better understand the formulation and establishment of China's political, economic and social systems, but also provide chances for international comparison of different models of development. It will hopefully contribute to promoting mutual understanding between China and western countries and boosting more inclusive development across the world in economic, cultural and social terms. In particular, it is of a significant reference value for researchers, teachers and students engaged or interested in political science, economics, sinology, history, cross cultural communication, etc. It is also recommended for those who are interested in China and the Chinese development. Chinese Indonesians in Post-Suharto Indonesia Wu-Ling Chong, 2018-10-02 Selfish, obscenely rich, insular and opportunistic, these remain how Chinese minorities in Indonesia are perceived by the indigenous population. However, far from being passive victims of discrimination and marginalisation, Chong presents a forceful case in which Chinese Indonesians possess the agency to shape their future in the country, particularly in the changing political, business and socio-cultural environment after the fall of Suharto. While a lack of good governance that promotes the rule of law and accountability allows or even encourages some Chinese to maintain the status quo by perpetuating corrupt business practices inherited from Suharto's New Order regime, there are other Chinese Indonesians who make full use of the

democratic space opened up under the new administrations acting as agents of reform by participating in electoral politics and establishing inter ethnic socio cultural organisations Building on Anthony Giddens s structure agency theory and Pierre Bourdieu s notions of habitus and field Chong shows that the Chinese minorities have played an active role in the democratic process even though they continue to occupy an ambivalent position in Indonesia The Chinese Indonesians diverse strategies to safeguard their personal interests and cultural identities make a stimulating case study of what an ethnic minority could do to make a difference Backed by formidable research Chong has produced an intriguing and original view of the political social and economic activity of the still precariously placed Chinese minority in Indonesia Donald L Horowitz Duke University author of Constitutional Change and Democracy in Indonesia In this illuminating study Chong traces the political economy of Indonesia s ethnic Chinese minority as they navigate the country s post 1998 politics which is more free but still lacks strong rule of law Focusing especially on Medan and Surabaya she analyses how some have strongly supported reforms while many continue old practices of surviving and profiting by participating in massive corruption and extortion Jeffrey A Winters Northwestern University author of Oligarchy

Glaser,2025-12-15 In Retrench Defend Compete Charles L Glaser advances a thought provoking strategy for securing vital US interests in the face of China s rise Many believe China s ascent will drive it to war with the United States Yet this is far from inevitable geography and nuclear weapons should ensure US security The real danger Glaser contends lies in East Asia s territorial disputes especially over Taiwan To reduce the risk of war Glaser makes a bold

case for ending US security commitments to Taiwan and carefully calibrating its policies on protecting South China Sea maritime features The United States should also strengthen its alliances with Japan and South Korea and eliminate unnecessarily provocative nuclear and conventional weapons policies These measures Glaser argues would defuse China's biggest security concerns while preserving America's core strategic interests Fusing theoretical insights with policy analysis Retrench Defend Compete lays out a distinctive and compelling approach for managing the world's most consequential geopolitical rivalry before it's too late
