rewards the organization for fulfilling its intentions Companies need a new set of KCIs or key consequence indicators that measure factors such as its impact on customers energy consumption whether its product is being used equally across socioeconomic groups or if it is actually solving the social problem it is addressing Not only is this the right thing to do increasingly it is what customers employees and shareholders demand of business In this inspiring practical and actionable guide Hemant Taneja lays out the argument for why a new model of company building and leadership is necessary and how it can lead to better performance explores why social good businesses are some of the greatest opportunities today detailing examples of billion dollar startups that are addressing inequality climate change systemic societal problems and chronic disease all while generating profit and positive shareholder returns presents a topic by topic road map that addresses business models artificial intelligence ethical growth culture governance and good citizenship Intended Consequences is designed as the ultimate playbook for founders entrepreneurs leadership teams and investors on how to build and maintain a responsible innovation company      Security Owner's Stock Guide Standard and Poor's Corporation,2007      **Management Information Systems** R.
