This table will help you sort out every type of eubacteria that we discussed in class (lab & lecture). Use it as a study guide, and upload it on or before the due date specified in Moodle for credit. Fill in this table with all bacteria discussed in this lecture & lab. Put an "x" in the boxes that are not relevant. You may need to add additional rows to your table as this course progresses and you meet more prokaryotes. I have filled in some of the table to help get you started.
