**Take Five! for Language Arts** Kaye Hagler, 2012 Kaye Hagler's unique bell ringers for language arts help you transform the first chaotic five minutes of class into authentic opportunities to practice critical thinking skills while also addressing the Common Core State Standards and providing support in the school's curriculum. Students in grades 3-9 exercise their mental muscles as they work collaboratively warming them up to tackle your standards-based lessons. Whether your students are inventing secret codes, concocting potions, rewriting history, making conjunction paper chains, or thinking like newspaper editors, these diverse and creative prompts will have them looking forward to the part of the day when they're asked to Take Five for critical thinking. The 180 plus prompts set up your teaching day from the minute that students step into your class. Each ready-to-use prompt includes corresponding standards, supply lists, language arts links, teacher tips, assessment options, rubrics, and digital connections that add more than 100 extension lessons. Begin every day of the school year with a burst of critical thinking and fun with this comprehensive resource. Ready Set Take Five

**Every Child, Every Day** Michael K. Raible, 2015-12-14 Reform of the educational systems in the United States and all over the world are coming from a wide variety of sources: philanthropists and businesses, federal and state governments, administrators and teachers, both large and small school districts. More nimble school districts have the best chance of creating a revised model of educational delivery that will produce successful students. The national statistics are awful: For every 100 low-income students that enter high school, only 65 will get a high school diploma, 53 will enroll in college, and will 11 actually complete a college degree. Nachazel and Dziuba, 2014. And the statistics for students living in poverty are far worse. This is one of many reasons why Roger Cook and the Taylor County Schools are of particular interest. Any district with a 61% poverty rate and over 40% of students attending college and zero yes zero dropouts deserves to be examined. WAC Partnerships Between Secondary and Postsecondary Institutions Jacob Blumner, Pamela B. Childers, 2016-03-22 Working with educators at all academic levels involved in WAC partnerships, the authors and editors of this collection demonstrate successful models of collaboration between schools and institutions so others can emulate and promote this type of collaboration.
