QUICKSILVER

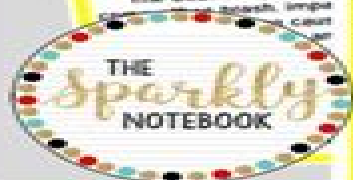

Quicksilver, whose real name is Pietro Django Maximoff, is the speedster of the Marvel Universe created by Stan Lee and Jack Kirby. Quicksilver first appeared in comics in an issue called "X-Men #4" released in March 1964. Similar to the superhero Flash, Quicksilver wields the power of speed. However, he is able to do so in his own unique ways. Not only can he travel quickly, he can also heal himself quickly, he can fly, and he can move things quickly allowing him to excel.

Quicksilver, while unique, is famous for his twin sister is for manipulate matter, time, and space (just to happen to be magnetic manipulation).

While Quicksilver is fast, he can run faster than sound. Since unfortunately for Quicksilver, Marvel and DC Universe are proven to be the faster of the two.

Quicksilver, like most, is featured in movies, video games, and the film "Dark Phoenix" as characters like Mystique.

The best thing about Quicksilver is that he can move things quickly.

FLASH

The Flash, who also goes by the nickname of "Scarlet Speedster", first appeared in the Flash comic in January of 1940. Flash, as the name may give away, has the power to move, think, and run at superspeed. This enables Flash with superhuman reflexes that go against the laws of physics. Most importantly, unlike most superheroes, Flash is made up of physics. Most importantly, unlike most superheroes, Flash is made up of physics. Most importantly, unlike most superheroes, Flash is made up of physics.
