This Study Guide represents the major product of The Talking Teaching Network's research and development related to the transition to the Common Core Standards. The contents of this Study Guide were developed through collaborations with teachers, instructional coaches, and school and district administrators at participating districts in California. Collaborations focused on developing materials and tasks to support educators' individual and collaborative study of California's new Common Core Mathematics standards. This Study Guide includes all tasks developed, directions for using and adapted versions of the standards themselves. Through these materials and reports, we seek to help educators advance their knowledge and expertise and thereby help their students successfully meet these new and more rigorous but very promising Mathematics standards. *SRA Open Court Reading*, 2002.
