**Media Literacy in Action** Renee Hobbs, 2024-10-14 There's never been a more important time for students to develop media literacy competencies. When students ask critical questions about the media they consume, they develop fundamental knowledge and critical thinking skills that prepare them for life work and meaningful citizenship. *Media Literacy in Action* addresses learners who are simultaneously active as both creators and consumers of media messages. At the same time, the book recognizes that everyone is vulnerable to media influence because of our dependence on the instant gratification and feelings of connectedness that digital platforms provide. To thrive in a media-saturated society, people need to ask critical questions about what we watch, see, listen to, read, and use. This book gives students those tools. Key features of the second edition: Critical examination of AI technologies, algorithmic personalization, data privacy, and surveillance; and the increased global regulation of digital platforms. Attention to media literacy for empowerment and protection. Inquiry-oriented approach to learning that cultivates intellectual curiosity and creative expression. Full-color presentation with figures and photos to increase student engagement. Each chapter includes *Media Literacy Trailblazers*, Profiles of key thinkers and their theories connect students with the discipline of media literacy. *Media Literacy DIScourse* NEW Visual representations of media literacy theoretical principles help learners internalize the practice of asking critical questions as they respond to specific media examples. *Learning in Action* NEW Summary and vocabulary sections combine with Analyze, Create, Reflect, and Act activities to empower students to apply ideas from each chapter.
