Things to Remember

Comparative advantage- A country makes a good at a lower opportunity cost than another country

Investment- This refers to business spending, on physical capital, never personal investing

Full employment- When there is only frictional and structural unemployment. No cyclical unemployment

Long-run self-adjustment- When there is a positive or negative output gap the SRAS will eventually shift

Fiscal policy- Changing government spending and/or taxes. This shifts aggregate demand

Monetary policy- Changing the money supply to affect interest rates. This shifts aggregate demand

Open Market Operations- Central bank buys or sells bonds, increasing or decreasing the money supply

Crowding Out- Deficit spending leads to higher real interest rates and less investment and growth

Capital Inflow- High interest rates decrease domestic investment but attract more financial capital
