Distinctive Features

A Review of Basic Principles To ensure that all students are sufficiently prepared for acquiring a meaningful understanding of biochemistry, the first four chapters are now streamlined for easier coverage and self-study assignment review. The principles of relevant topics such as organic functional groups, noncovalent bonding, thermodynamics, and cell structure.

Chemical and Biological Principles in Balance Comprehensive coverage offers the flexibility for each instructor to decide how much chemistry or biology to present. Chemical mechanisms are always presented within the physiological context of the organism.

Real World Relevance Because students who take the survey of biochemistry course come from a range of backgrounds and have diverse career goals, the fifth edition consistently demonstrates the fascinating connections between biochemical principles and the fields of medicine, nutrition, agriculture, bioengineering, and forensics.

The most robust Problem Solving Program available In chapter Worked Problems illustrate how quantitative problems are solved, and dozens of Questions interspersed throughout the chapters provide students with opportunities to put their knowledge into action right when new concepts and high interest topics are introduced.

Chapter overviews, end of chapter Review Questions, and Thought Questions and key word lists help students grasp the big picture in each chapter.

Simple, Clear Illustrations Biochemical concepts often require a high degree of visualization, and the McKee McKee art program brings complex processes to life. Over 700 full color figures, many newly enhanced for a more vivid presentation in three dimensions and consistent scale and color for chemical structures.

Currency The fifth edition has been extensively updated with recent developments in the field while remaining focused on the big picture principles that are the focus of the one-term biochemistry course.

New to this Edition Chapter opening Vignettes, an all new feature of the fifth edition, give biological motivation. These 19 essays include
