Lena Robinson

Black Like Me Workbook Two Black Pioneers:

Cross-Cultural Child Development for Social Workers Lena Robinson, 2018-06-26 Social workers today operate in an increasingly ethnically diverse society yet many of the models that they use fail to reflect that diversity Lena Robinson's exciting and innovative text draws on literature from Britain and North America to explain child development from a cross cultural black and ecological perspective Using practice examples to illuminate key points for social workers she considers a range of key topics from attachment to identity and communication to socialization This will be essential reading for social workers at all stages of their careers who want to develop strength based anti racist and culturally sensitive practice

Psychology for Social Workers Lena Robinson, 2012-10-12 Psychology for Social Workers is designed to help qualifying and practising social workers to understand and counteract the impact of discrimination work in an ethnically sensitive way and demonstrate an awareness of ways to combat both individual and institutional racism through anti racist practice

How and why Children Hate Ved P. Varma, 1993-01-01 We all hate from time to time but children hate more than adults The contributors to this book discuss how to recognise and handle hatred in a practical way Their different perspectives enable the reader to obtain a comprehensive picture of available models and management approaches to children's primitive hatred

Working with Children of Mixed Parentage Toyin Okitiki, 2005 This uniquely important new book asks fundamental questions about professional practice that views society as a binary world in which children can be only Black or White It questions social workers and others' assumptions about children of mixed parentage and challenges simplistic understandings of race ethnicity and culture It advocates a more complex understanding of the issues one rooted in the lived experience of the children and families who are the subjects of social intervention Rather than viewing these children and young people as victims of confusion and uncertainty this important book identifies the ethnic and cultural diversity to which these youngsters are heir as the basis upon which effective practice must be built Working with children of mixed parentage explores The influence of the one drop rule one drop of black blood renders a person black on professional practice in social welfare The experiences of white mothers of children of mixed parentage The social impact of the increasing number of interracial relationships and children of mixed parentage in Britain The social and psychological development of children of mixed parentage A new paradigm for direct work with the children and young people of mixed parentage and their families The permanent family placement experience of children of mixed parentage The contributors are at the forefront of developments in this contentious field Working with children of mixed parentage has been written with practitioners students service managers and academics in mind It is an invaluable source for those genuinely interested in developing improved practice with children of mixed parentage and their families
