2. What is the original source of all energy? The sun

10. Why does a bear hibernate? It reduces the amount of energy required when the food source of a bear is reduced during the winter months.
11. Why do birds fly south in the winter? The amount of food found at the new destination is worth the long trip. It also provides a safe nesting ground.
12. Describe the energy used to grow food in the United States compared to other countries. The United States uses more fossil fuel energy to grow food while other countries use more human/animal energy to grow food.
13. What is a factory farm? A factory farm is where a large number of animals are raised and fattened indoors or in large feedlots to be used as a food source.
