	Louver position will be set automatically. Louver will be set to the preset position according to the operation mode.

	The louver will continuously swing up and down. The "swing" setting will provide optimal, even air distribution in the room.

Indoor Unit Display (Fig. 7) — The indoor unit display has three LED indicators at the lower right hand portion of the unit. The Blue light is illuminated when the ionizer is

active. The Orange light is illuminated during timer mode. The Green light is illuminated during operation.

Emergency Operation — When the remote control is lost or damaged or the batteries are exhausted, the EMER. button can be used to run the unit.

Press the EMER. button once briefly when the system is off. To stop emergency operation, push the EMER. button again or operate the remote control.

The set conditions of emergency operation are as follows:

- Preset set point: 77 F
- Fan speed: AUTO
- Timer mode: Disabled
- Discharge air direction: Pre-set position based on operation in "Cool" or "Heat" mode.

Pressing the On/Off Button — When the air conditioner is not in operation, the remote control readout will display the time of day only.

Press the On/Off button to start the unit.

The unit will start in the last operating mode.

Press button On/Off to stop the unit.

All indicator lights on the unit will go out, and the remote control will display only the current time.

If the unit does not stop, turn the control on (by pressing the On/Off button) and repeat the operation.

NOTE: If the On/Off button is pressed too soon after a stop, the compressor will not start for 3 to 5 minutes due to the inherent protection against frequent compressor cycling. The unit will only emit an audible beep when the signals are received correctly.
