Financial Freedom Gisela Enders, 2017-09-15 For many people financial freedom is a major goal. If they no longer needed to work for money so much would be possible. For people who have to go to work every day that seems like paradise. But how do people actually live once they have reached the goal? Gisela Enders interviewed people mostly from Germany and Europe who are already financially free. She met very interesting people. Some who do not work at all anymore and others who spend every day working on their own projects out of sheer passion. Some who make their living from stocks and others who live from rental income. And others who live abroad and need very little money to live on. People who want to enjoy spending time with their kids and others who put all their passion into their own projects. Most of the people interviewed live frugally and from the outside the only thing different about them is that they are rich in time. What would your own ideal life be like? A life that you planned yourself rather than one planned for you. You can put that plan into practice step by step. The ideas in this book will inspire you to consider a life beyond the rat race.
