Blank Aia Document A12007:

Alternative Clauses to Standard Construction Contracts Nick Jones, S. Gregory Joy, Eugene J. Heady, 2009-01-01 In recent years there have been many changes to the construction industry's standard form contracts including the American Institute of Architects AIA and Engineer Joint Contract Documents Committee EJCDC documents. Additionally, a new family of contract documents known as ConsensusDOCS was created by agreement among various construction contractor, subcontractor, owner, and surety trade associations. *Alternative Clauses to Standard Construction Contracts Third Edition* provides instant access to amendments to AIA, AGC, EJCDC, and ConsensusDOCS for owners, architects, and contractors. This unique resource covers all major documents in use throughout the construction industry and enables you to compare between the different documents. It delivers practice-proven amendments clause by clause. It tells you specifically what to insert and delete in order to reach the ends your client desires. And it goes so deep it even covers contractors' amendments for agreements with subcontractors. While it is absolutely essential to stay current with these standard agreements, it is imperative that everyone involved in negotiating and drafting construction contracts also have access to practice-proven modifications that strengthen the language on behalf of clients. If the other parties to your agreement have access to this book and you don't, you're placed at a significant disadvantage every step of the way. Let the experts from Smith Currie Hancock provide you with invaluable support when negotiating or drafting construction contracts.
