Blood Tears Little Town 4:

A Continent for the Taking Howard W. French, 2007-12-18 In *A Continent for the Taking* Howard W. French a veteran correspondent for The New York Times gives a compelling firsthand account of some of Africa's most devastating recent history from the fall of Mobutu Sese Seko to Charles Taylor's arrival in Monrovia to the genocide in Rwanda and the Congo that left millions dead. Blending eyewitness reportage with rich historical insight French searches deeply into the causes of today's events illuminating the debilitating legacy of colonization and the abiding hypocrisy and inhumanity of both Western and African political leaders. While he captures the tragedies that have repeatedly befallen Africa's peoples French also opens our eyes to the immense possibility that lies in Africa's complexity diversity and myriad cultural strengths. The culmination of twenty-five years of passionate exploration and understanding this is a powerful and ultimately hopeful book about a fascinating and misunderstood continent.

Icons of American Protestantism David Morgan, 1996-01-01 Although American Protestants often claim that they are opposed to the use of devotional images in their religious life they in fact draw on a vast body of religious icons to disseminate confessional views to teach and to celebrate birthdays baptisms confirmations and sacred holidays. This fascinating book focuses on the production marketing and reception of one such set of religious illustrations the art of Warner Sallman 1892-1968 whose 1940 *Head of Christ* has been reproduced an estimated five hundred million times. Five scholars three art historians a church historian and a historian of material culture investigate various aspects of Sallman's career and art in the process revealing much about the role of imagery in the everyday devotional life of American Protestants since the 1940s. The chapters examine Sallman's work in terms of the visual sources media and forms of use that shaped its making its mass production marketing and distribution by publishers and vendors and the commercial nature of Sallman's training and his work as an illustrator. Other chapters explore the reception of his religious imagery among those who admired it and saw in it a vision of the world as they would have it exist the religious and theological context of conservative American Protestantism in which the imagery flourished and its critical reception among liberal Protestant intellectuals who despised Sallman's work and what it represented in popular Christianity. By placing Sallman's art in theological ecclesiastical and aesthetic perspective the book sheds light on the evolving shape of twentieth-century American evangelicalism and its influence on modern American culture.
