Each title is just one component in a comprehensive calculus course program that carefully integrates and coordinates print media and technology products for successful teaching and learning. **Calculus** Ron Larson, Bruce H. Edwards, Robert P.

Hostetler, Roland E. Larson, 2005-01-24 Created specifically for a Calculus II course and as a second volume for students who have completed either the Larson team's Calculus I 8e or Calculus I with Precalculus 2e text, Calculus II 8e comprises

chapters 6-10 of the full Calculus 8e text. The text continues to offer instructors and students new and innovative teaching

and learning resources. The Calculus series was the first to use computer-generated graphics. Third Edition to include

exercises involving the use of computers and graphing calculators. Fourth Edition to be available in an interactive CD-ROM

format. Fifth Edition to be offered as a complete online calculus course. Sixth Edition and to offer a two-semester Calculus I

the best features of new technology and when appropriate calculus reform ideas. Now the Eighth Edition is the first calculus

program to offer algorithmic homework and testing created in Maple so that answers can be evaluated with complete

mathematical accuracy. Two primary objectives guided the authors in writing this book: to develop precise, readable materials

for students that clearly define and demonstrate concepts and rules of calculus and to design comprehensive teaching

resources for instructors that employ proven pedagogical techniques and save the instructor time. The Eighth Edition

continues to provide an evolving range of conceptual, technological, and creative tools that enable instructors to teach the way

they want to teach and students to learn the way they learn best. The Larson program offers a variety of options to address

the needs of any calculus course and any level of calculus student, enabling the greatest number of students to succeed. The

explanations, theorems, and definitions have been thoroughly and critically reviewed. When necessary, changes have been

made to ensure that the text is pedagogically sound, mathematically precise, and comprehensible. The exercise sets have been

carefully and extensively examined to ensure they cover all calculus topics appropriately Many new exercises have been added at the suggestion of a number of calculus instructors A variety of exercise types are included in each exercise set Questions involving skills writing critical thinking problem solving applications and real data applications are included throughout the text Exercises are presented in a variety of question formats including matching free response true false modeling and fill in the blank The Eduspace online resources have been integrated into a comprehensive learning system that combines numerous dynamic calculus resources with online homework and testing materials The Integrated Learning System addresses the changing needs of today s instructors and students Recognizing that the calculus course is presented in a variety of teaching and learning environments the program resources are available in print CD ROM and online formats Eduspace powered by Blackboard provides instructors with online courses and content in multiple disciplines By pairing the widely recognized tools of Blackboard with quality text specific content from Houghton Mifflin HMCo Eduspace makes it easy for instructors to create all or part of a course online Homework exercises quizzes tests tutorials and supplemental study materials all come ready to use Instructors can choose to use the content as is modify it or even add their own Eduspace with eSolutions combines all the features of Eduspace with an electronic version of the textbook exercises and the complete solutions to the odd numbered text exercises providing students with a convenient and comprehensive way to do homework and view the course materials SMARTHINKING online tutoring brings students real time online tut
